NOTICE OF THE ANNUAL GENERAL MEETING

CROWN PAINTS KENYA PLC
(the Company)

Notice of the 69th Annual General Meeting to the shareholders of Crown Paints Kenya Plc

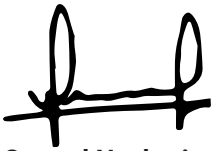
In accordance with the provisions of the Companies Act, Cap 486 as amended by the Business Laws (Amendment) (No. 2) Act, 2021, NOTICE IS HEREBY GIVEN in accordance with Article 77 of the Company's Articles of Association that the 69th Annual General Meeting of the Company will be held virtually at 11.00 am on Friday, 26th June 2026 to conduct the business set out below:

All resolutions will be conducted by way of a Poll.

As ordinary business to consider and, if thought fit, pass the following ordinary resolutions:

1. To adopt the audited financial statements for the year ended 31st December 2025 together with the Directors' and Auditors' Reports thereon.
2. To declare a final dividend of KShs 3.00/= per ordinary share for the financial year ended 31st December 2025 and to approve the closure of the Register of Members at 4.30 pm on 26th June 2026 for one day only.
3. To re-elect the following Directors:
    a) In accordance with Article 98 of the Company's Articles of Association, Mr. Mustafa Turra having been appointed during the year to fill a casual vacancy retires and being eligible, offers himself for re-election;
    b) Mr Nicholas Kathiari retires by rotation in accordance with Article 101 of the Company's Articles of Association and being eligible, offers himself for re-election.
    c) In accordance with the provisions of section 769(1) of the Companies, Chapter 486, Laws of Kenya, the following Directors, being members of the Board Audit and Risk Committee be elected individually to continue serving as members of the Committee:
        i) Mr Nicholas Kathiari - Chairman
        ii) Mr Steven Oundo
        iii) Ms Alice Owuor
4. To approve the Directors' Remuneration Report and the remuneration paid to the Directors for the year ended 31st December 2025 and to authorise the Board to fix the remuneration of the Non-Executive Directors.
5. To re-appoint Messrs. Ernst & Young LLP as the auditors of the Company for the Financial Year ending 31st December 2026 in accordance with Section 719 (2) of the Companies Act, Chapter 486, Laws of Kenya, and to authorise the Directors to fix their remuneration for 2026
6. Any other Business for which valid Notice shall have been given.

BY ORDER OF THE BOARD



Conrad Nyukuri
Company Secretary
Date: 4th June 2026

Notice of the Annual General Meeting
(Continued)

Notes

1. Shareholders wishing to participate in the meeting should register for the AGM online at **https://digital.candr.africa** or by dialling USSD short code number ***483*400#** or via a link to the AGM Platform that will be sent to them via SMS and/or email and following the various registration prompts.
   In order to complete the registration process, shareholders will need to have their ID/Passport Numbers which were used to purchase their shares at hand. For assistance shareholders should dial the following helpline number +254 20 8690360 from 8:00 a.m. to 4:30 p.m. from Monday to Friday. Any shareholder outside Kenya should dial the helpline number to be assisted to register or send an email **digital@candr.africa.**

2. Registration for the AGM shall open on 18th June 2026 at 8.00 am and will close on 25th June 2026 at 12.00 noon. Shareholders will not be able to register after 25th June 2026 at 12.00 noon.

3. Shareholders wishing to raise any questions for the AGM may do so by:
   a) Sending their written questions by email to digital@candr.africa or
   b) Dialling the USSD code *483*400# and selecting the option (ask Question) on the prompts or
   c) Clicking the link to the AGM Platform; Select Attend Event; Select “CROWN PAINTS AGM” Select “Q&A” option tab and submit questions in text box provided; or
   d) To the extent possible, physically delivering their written questions with a return physical address or email address to the offices of Custody and Registrars Services Ltd, Company’s Registrars, at IKM Place, Tower B, 1st Floor, 5th Ngong Avenue, Nairobi. Shareholders sending questions by email or delivering to C&R Group must provide their full details (full names, Shares Account Number//CDSC Account Number) when submitting their questions and clarifications.
   Also attach a copy of your ID/Passport.

4. Shareholders wishing to vote may do so by:
   a) Clicking the link to the AGM Platform; Select Attend Event; Select “CROWN PAINTS AGM”; Select “Voting” option tab and vote; or
   b) Dialling the USSD platform***483*400#**; Use the menu prompts to Select the menu option for “Voting” and follow the various prompts regarding the voting process.

5. In accordance with Section 298(1) of the Companies Act Cap 486, shareholders entitled to attend and vote at the AGM are entitled to appoint a proxy to attend and vote on their behalf. A proxy must be signed by the appointor or his attorney duly authorized in writing. If the appointer is a body corporate, the instrument appointing the proxy shall be given under its common seal or under the hand of an officer or duly authorized attorney of such body corporate. A completed form of proxy should be emailed to proxy@candr.africa or delivered to Custody and Registrars Services Ltd, the Company’s Registrars, at IKM Place, Tower B, 1st Floor, 5th Ngong Avenue, Nairobi so as to be received not later than Wednesday, 24th June 2026 at 11.00 a.m. When nominating a proxy, the ID/Passport No, details for email and/or mobile number of the proxy must be submitted to facilitate registration. Any proxy registration that is rejected will be communicated to the shareholder concerned no later than Thursday, 25th June 2026 to allow time to address any issues.

6. The Virtual AGM will be accessible to shareholders and proxies who have duly registered. Duly registered shareholders and proxies will receive a short message service (SMS/USSD) prompt on their registered mobile numbers two hours before the AGM, reminding duly registered shareholders and proxies that the AGM will begin in two hours' time and providing the link to watch the live stream.

7. Duly registered shareholders and proxies may vote (when prompted by the Chairman) via the USSD ***483*400#** or on the AGM Platform.

8. A poll shall be conducted for all the resolutions put forward in the notice.

9. Results of the AGM shall be published within 24 hours following conclusion of the AGM.

10. A copy of this notice, the proxy form, the Integrated Annual Report may be viewed from the company's website at **www.crownpaints.co.ke.**

11. All present and former shareholders of the Company are hereby notified that pursuant to the provisions of the Unclaimed Financial Assets Act No 40 of 2011 Parts II and III, dividends and shares which have not been claimed for a period of three (3) years or more will require to be delivered to the Unclaimed Financial Assets Authority ('the Authority) as abandoned assets on the appointed date. Therefore, all present and former shareholders with unpaid dividends are requested to urgently contact the Share Registrar, Custody & Registrars Services Limited at the address indicated below to claim any unpaid dividends to avert the risk of the dividends being forwarded to the Authority.

CHAIRMAN'S STATEMENT

MHAMUD CHARANIA

Driving Growth in a Dynamic Regional Market

The year 2025 marked an important period of strategic growth for the CPKL Group as businesses across the region continued adapting to changing economic conditions, growing consumer expectations, foreign exchange pressures, and increased competition. Despite operating within a demanding regional environment, the Group remained focused on customer-centricity, disciplined execution, operational efficiency, and long-term value creation.

At the same time, our Group companies remained agile in responding to changing customer preferences, affordability pressures, and the growing demand for innovative and value-driven building solutions. Against this backdrop, Crown Paints Kenya PLC delivered one of its strongest performances in recent years, reaffirming the strength of its brands, regional footprint, and operational excellence within the industry.

During the year, the Group recorded a 19 percent growth in revenue to Ksh 16 billion, while profit before tax rose to Ksh 1.4 billion. The Board is pleased to recommend a dividend of Ksh 3 per share, reflecting the Group's strong financial performance, healthy cash generation, and confidence in its future prospects.

This strong performance reflects the strength of our business, the commitment of our teams, and the continued trust placed in the Crown Paints brand by customers, dealers, contractors, applicators, and partners across the region.

Building Competitive Advantage Across East Africa

The East African region continues to present significant long-term opportunities for the Crown Paints brand, supported by urbanisation, infrastructure expansion, population growth, and increased investment in housing and construction. However, the operating environment remains highly competitive and increasingly influenced by foreign exchange volatility, rising input costs, global supply chain disruptions, and evolving sustainability expectations.

The Board was encouraged by management's continued efforts to adapt to these market dynamics through innovation, customer-focused initiatives, operational efficiency, and disciplined execution across the Group.

Regional operations remain an important pillar of the Group's long-term growth strategy. During the year, the Group's companies in Uganda, Tanzania, and Rwanda recorded encouraging progress, supported by improved market penetration, stronger customer engagement, operational efficiencies, and participation in key infrastructure and construction projects. The Board remains encouraged by the continued development of these markets and their growing contribution to the Group's regional footprint and future growth ambitions.

The Board continues to support management's efforts to strengthen the Group's competitive position across East Africa through innovation, operational excellence, customer engagement, and prudent investment in market development. These initiatives continue to reinforce the Group's leadership position and support sustainable long-term value creation.

New Era of Growth and Transformation

During the year, the Company witnessed an important leadership transition following the departure of former Group Chief Executive Officer Dr. Rakesh Rao, whose

leadership played a significant role in strengthening Crown Paints' operational foundation, market leadership, innovation culture, and customer focus. His tenure also strengthened alignment between commercial growth, operational resilience, and stakeholder engagement while laying a strong foundation for the Company's next phase of growth. On behalf of the Board, I would like to sincerely thank Dr. Rao for his leadership, commitment, and contribution to the Group's growth journey.

On behalf of the Board, I would like to warmly welcome our new Group Chief Executive Officer, Mustafa Turra. His appointment marks an important new chapter for the Company, and we are confident that his leadership will help drive Crown Paints into its next phase of growth and transformation.

Mustafa brings extensive industry and regional experience, deep commercial expertise, strong operational leadership, and a proven track record in business transformation, people development, customer engagement, product innovation, and growth execution across international markets. His global outlook and experience in leading transformational initiatives will be instrumental as the company continues to strengthen its leadership position within the paints and coatings industry across East Africa and beyond.

Although Mr. Turra joined the Group towards the end of the reporting period, he has already begun engaging with key stakeholders and working closely with the Board and management team to shape the next phase of the Group's growth strategy.

The Board believes his strategic direction and leadership will support the continued expansion of the business, accelerate innovation, deepen regional competitiveness, and reinforce Crown Paints' position as East Africa's leading paint solutions provider.

Strengthening Governance and Sustainability

The Board remains firmly committed to strong governance, responsible leadership, effective risk oversight, operational discipline, and long-term value creation. During the year, the Board continued strengthening its oversight of strategic risk management, regulatory compliance, information security, and sustainability matters to ensure the Group remains resilient and well positioned for long-term growth.

Sustainability remains an important pillar of the Group's long-term strategy. During the year, the Group advanced several initiatives aimed at reducing environmental impact, improving resource efficiency, and strengthening responsible manufacturing practices across its operations. I would like to sincerely thank my fellow Board members for their stewardship, guidance, and commitment throughout the year. Their collective experience, oversight, and dedication have been instrumental in maintaining the Group's resilience, strengthening stakeholder confidence, and supporting the achievement of our long-term strategic objectives across the region.

Focused on Long-Term Value Creation

Looking ahead to 2026 and beyond, the Group remains focused on strengthening market leadership, accelerating regional expansion, advancing innovation, enhancing customer experience, and delivering sustainable long-term value to shareholders and stakeholders

.

The Group will continue to pursue profitable growth through operational excellence, customer-centric solutions, disciplined capital allocation, and continued investment in innovation and market development across the region.

The Board continues to monitor key strategic and operational risks, including foreign exchange volatility, input cost inflation, regulatory developments, and evolving market conditions across East Africa. While the operating environment is expected to remain dynamic, the Board remains confident in the Group's resilience, strategic direction, and ability to adapt to emerging opportunities and challenges.

On behalf of the Board, I would like to sincerely thank our shareholders, employees, customers, dealers, suppliers, and partners for their continued trust, commitment, and support throughout the year.

MUSTAFA TURRA

Building on a Strong Foundation

Having joined Crown Paints Kenya PLC in October 2025, I had the opportunity to engage with our employees, customers, dealers, suppliers, and other stakeholders across the business during the final quarter of the year. The achievements highlighted in this report reflect the collective efforts of the Board, Management team, employees, and our valued business partners throughout 2025, and I am pleased to share my perspective on the progress made and the opportunities that lie ahead.

The year marked a period of strong growth, operational improvements, and increased market engagement for Crown Paints Kenya PLC. Our performance reflected continued focus on customer needs, disciplined execution, operational efficiency, and the strength of our brands across the region. The strong financial results achieved during the year were supported by innovation, improved customer engagement, and growth across our regional markets.

Innovation continued to play a central role in shaping our growth journey. Our focus remains on developing solutions that improve durability, sustainability, ease of application, and overall value for customers across the decorative, industrial, and construction segments. Guided by customer insights, applicator feedback, and evolving market trends, we continue investing in products that respond to changing market needs.

New products such as Rain Protek – Exterior Waterproofing coating, Aqua Glow - Water-Based Low-VOC Gloss Finish, Damp Protek - Waterproofing solution, CP Floor Tek Self-Levelling Epoxy Flooring, and Fire Shield - Intumescent Coating contributed positively to business growth during the year. At the same time, our flagship brands such as Covermatt, Ruff & Tuff, and UltraGuard Silicone continued maintaining strong market leadership.

Investing in People, Capability and Collaboration

At Crown Paints, our people remain one of our greatest strengths. The progress achieved during the year reflects the dedication, collaboration, and resilience demonstrated by our teams across all operations and markets.

During the year, we continued strengthening employee engagement, capability development, technical training, and leadership growth across the business to ensure our teams remain equipped to support the Company's evolving operational and customer needs. This was supported by over 300 learning interventions and more than 20,000 learning hours focused on commercial growth, technical capability, operational excellence, and leadership development.

As part of our employee engagement initiatives, the Company recognized 199 employees through the Quarterly Awards and Annual Chairman's Award. The Group also maintained a strong focus on workplace safety, operational discipline, employee wellbeing, and internal collaboration across all facilities and operations.

The collaborative effort between our commercial, manufacturing, supply chain, technical, finance, and

customer-facing teams played an integral role in supporting operational efficiency, customer responsiveness, and business continuity across the region.

Strengthening Dealer and Applicator Partnerships

Across our Group operations, channel partners including dealers, contractors, applicators, and project stakeholders remain central to the success of our business. During the year, we further enhanced engagement with these important stakeholders through a series of market-leading initiatives aimed at deepening loyalty, improving customer experience, and accelerating sustainable growth across the region.

Among the key milestones was the launch of the TAJI Elite Club, East Africa's first premium dealer loyalty platform designed to recognize and reward top-performing dealers while strengthening long-term business partnerships. Through this initiative, qualifying dealers from Kenya, Uganda, and Tanzania earned incentives and were rewarded with a five-day experiential programme in Morocco.

The Company also successfully implemented the "Songa Na Crown" dealer engagement programme aimed at enhancing dealer experience and long-term brand loyalty through local and international experiential initiatives, including visits to Maasai Mara and Mauritius. These programmes contributed significantly to improved dealer engagement, stronger brand affinity, and enhanced collaboration across the market.

Our 'Team Kubwa' painter loyalty programme also continued expanding significantly during the year, helping strengthen engagement with painters while driving product awareness and secondary sales growth across the market. Through initiatives such as the 'Twende Mara na Crown' reward programme, painter insurance support, technical product demonstrations, and specialized training sessions, we continued investing directly in the professionals who interact with our products daily and influence customer experience on the ground.

During the year, more than 15,000 painters and over 5,000 retail counter staff received technical training, reinforcing our commitment to improving product knowledge, application standards, and service delivery across the market.

Supporting Communities Beyond Business

As a business, we believe sustainable growth must be accompanied by meaningful social impact and responsible community engagement. Throughout the year, we continued investing in initiatives aimed at improving the quality of life within communities across the region while contributing to cleaner, safer, and more dignified environments.

Among the key initiatives undertaken during the year was the renovation and repainting of learning institutions such as Giving Back Hope Together Academy in Nairobi County and Kwanjora Special School in Nyahururu, reaffirming our commitment to supporting quality learning environments for children and learners with special needs.

The Company also supported the refurbishment and improvement of hospitals, police stations, children's homes, and other community institutions across different parts of the country. These initiatives form part of our broader commitment to community wellbeing, social development, and lasting impact within the communities we serve. In addition, Crown Paints continued supporting youth empowerment programmes, education initiatives, community fundraising activities, and institutions supporting vulnerable groups across the country.

Beyond community initiatives, the Company remained actively involved in sports development through strategic support for golf, rugby, cricket, and paralympic programmes. These initiatives continue providing important platforms for talent development, youth empowerment, and positive social impact.

Our environmental sustainability agenda continued advancing during the year through strategic initiatives such as the Bamboo Carbon Sink Farm launched at

Kamwenja Teachers' Training College in Nyeri County during World Bamboo Day. The initiative reflects Crown Paints Kenya PLC's long-term commitment to climate action, environmental stewardship, and sustainable innovation.

Driving Operational Excellence and Regional Growth

Operational efficiency, supply chain resilience, and business continuity remained key priorities throughout the year. The Group increased paint production volumes significantly while investing in capacity enhancement initiatives aimed at supporting uninterrupted market supply and improving responsiveness across regional operations. The Company also strengthened local raw material sourcing to reduce import dependence, improve supply chain stability, and enhance operational flexibility.

During the year, Crown Paints Kenya PLC achieved ISO/IEC 27001:2022 certification, reaffirming the Company's commitment to information security, data protection, and global best practices. The certification strengthens the Company's Integrated Management System and confirms its ability to safeguard the confidentiality, integrity, and availability of information across its operations. This milestone further reinforces Crown Paints' commitment to operational excellence, information security, and responsible business practices as the Company continues expanding across East Africa.

Regional operations recorded encouraging progress during the year and remain an important contributor to the Group's long-term growth ambitions. Uganda continued benefiting from strong infrastructure growth and increased construction activity, while Tanzania recorded improved margins supported by stronger premium product sales, operational efficiencies, improved dealer service levels, and disciplined cost management. Rwanda also continued supporting the Group's broader regional growth ambitions through improved market presence and entry into major projects.

Looking Ahead

As we look ahead, our ambition remains firmly focused on delivering smarter, safer, and more sustainable paint solutions that respond to the changing needs of our customers, industries, and communities. We remain committed to strengthening customer experience through innovation-led products, operational excellence, digital transformation, and deeper stakeholder partnerships while accelerating regional expansion across East Africa.

At the same time, we know that the future of our business extends beyond financial performance alone. Crown Paints remains committed to playing a broader role in shaping sustainable growth, supporting local industries, empowering communities, advancing environmental stewardship, and contributing meaningfully to the region's long-term development journey.

Our long-term vision is to continue building a business that combines innovation, sustainability, operational excellence, and social impact while creating lasting value for customers, employees, dealers, communities, and shareholders across East Africa.

On behalf of Management, I would like to sincerely thank our employees, customers, dealers, suppliers, shareholders, and partners for their continued trust and support throughout the year. Together, we remain committed to building a stronger, more innovative, more resilient, and more sustainable future for Crown Paints and the communities we serve.

2025 SUSTAINABILITY AND CORPORATE SOCIAL RESPONSIBILITY

Shaping a More Responsible Future Together

At Crown Paints Kenya PLC Group, sustainability is embedded in the way we operate, innovate and grow. As a regional paints and coatings manufacturer serving Kenya, Uganda, Tanzania and Rwanda, we recognize that long-term business success depends on resilience, responsible stewardship and the value we create for all our stakeholders.

In 2025, we continued to strengthen our sustainability journey around four strategic pillars: Human Capital Resilience, Community Impact and Responsible Value Chain, Climate Change and Operational Excellence, and Products & Innovation. These pillars guide how we manage our environmental footprint, support our people, work with communities and strengthen our value chain.

CROWN PAINTS' COMMITMENT TO CLIMATE CHANGE AND OPERATIONAL EXCELLENCE

In 2025, Crown Paints continued to improve operational efficiency while growing production and strengthening the resilience of its manufacturing operations. Our focus remained on renewable energy, emissions management, water stewardship, energy productivity and smarter operations.

Solar Expansion

Crown Paints strengthened its renewable energy transition by expanding solar installations during 2025. This expansion increased installed solar capacity by 44%, while solar energy generated rose by 50% . The stronger solar platform increased solar contribution to total electricity demand increase to 11.6%, reducing reliance on grid electricity and reinforcing the Group's commitment to lower-carbon, more resilient operations.

Expanding solar capacity continues to support Crown Paints' transition to lower-carbon operations

Electric Fleet Transition

Crown Paints marked a major step in its low-carbon transition with the deployment of an electric fleet comprising 15 electric bikes and 8 electric forklifts. This initiative supports our commitment to reducing operational emissions while improving efficiency and lowering long-term fuel and maintenance costs. By integrating cleaner mobility solutions across our sites, we are actively advancing our climate strategy and building a more resilient, future-ready operation

The Bamboo Carbon Sink initiative supports climate action through carbon sequestration and environmental stewardship.

CROWN PAINTS' COMMITMENT TO PRODUCTS AND INNOVATION

Product Innovation

Crown Paints proudly unveiled groundbreaking solutions set to transform the construction industry in East Africa:

Crown FloorTek and Crown FireShield reflect our commitment to safer, more sustainable innovation.

These innovations demonstrate our commitment to creating products that combine performance, safety and sustainability.

Crown Paints proudly unveiled two groundbreaking solutions set to transform the construction industry in East Africa:

Crown FloorTek – High-performance, solvent-free epoxy flooring designed for unmatched durability and style.

Crown FireShield – Advanced, water-based fire-retardant protection for multiple surfaces.

From stronger floors to safer spaces, these innovations set new standards in quality, safety, and aesthetics.

A big thank you to our partners, clients, and industry leaders who joined us for this milestone launch. Together, we are building a brighter, safer future.

CROWN PAINTS' COMMITMENT TO PEOPLE AND COMMUNITY

Our sustainability journey extends beyond our operations. We remain committed to creating shared value by investing in our employees, supporting communities and strengthening livelihoods across the markets we serve.

Human Capital Resilience

In 2025, the Group continued to build a safer, more capable and more inclusive workforce.

- **Women in senior management** increased from **26% to 28%**
- **Employee dependant education sponsorships** increased to **28**
- **Lost Time Injury Severity Rate** reduced from **179 to 121.5**

These outcomes reflect our commitment to workforce capability, wellbeing, inclusion and safety.

Investing in our people strengthens resilience, safety and long-term performance.

COMMUNITY & CSR INITIATIVES

Improving public spaces is one way we help build healthier, more dignified communities.

Giving Molo Sub-County Hospital A Fresh New Face

Crown Paints, in partnership with the Nakuru County Government, gave Molo Sub-County Hospital a fresh new face. This initiative reflects our commitment to supporting health and dignity in public spaces through meaningful community partnerships.

Giving Thiririka Comprehensive School A Vibrant New Look

In partnership with JKUAT's Architectural Students Association, Crown Paints gave Thiririka Comprehensive School a vibrant new look. The initiative demonstrated how improved learning environments can inspire young minds and support education.

A brighter learning environment can inspire confidence, creativity and hope.

Supporting education remains central to our community impact agenda.

Shauri Moyo Primary School – "Grow a Classroom" CSR Project

At Shauri Moyo Primary School in Kisumu, supported by Crown Paints as Platinum Sponsor, students showcased their ideas for a better tomorrow through sketches of their dream school. Three students were recognized under the "Grow a Classroom" CSR project, highlighting our continued support for education and creativity.

Iftar Community Support

During Ramadan, Crown Paints donated Iftar food to Pangani and Shauri Moyo Mosques, and also shared Iftar in Masjid Al Hikmah - Kaloleni Chalani, Kilifi County, and in Kizimbani, in partnership with community organizations. These initiatives reflected our values of compassion, unity and shared humanity.

CROWN PAINTS' COMMITMENT TO GOVERNANCE AND SUSTAINABILITY INTEGRATION

Sustainability at Crown Paints is anchored in governance and embedded in decision-making across the Group. Board oversight, management structures and internal monitoring systems continue to strengthen the way sustainability-related risks and opportunities are identified, managed and reported.

The Board has oversight of the Group's approach to sustainability and is supported by appropriate governance structures, including sustainability-focused oversight and management committees. This enables stronger accountability, better monitoring of progress and clearer integration of sustainability into strategy, risk management and operational planning.

As we continue to evolve and prepare for our first year of IFRS-aligned sustainability reporting, we remain focused on:

- strengthening governance and oversight
- improving data quality and reporting processes
- embedding sustainability in operational planning
- improving evidence, controls and performance monitoring
- responding transparently to both progress and challenges

Industry Engagement and Thought Leadership

During the year, Crown Paints continued to participate actively in industry platforms including **AAK, KPDA** and sustainability roundtables, helping shape conversations around green construction and responsible urban development.
Notable engagements included:

- sponsorship of the **IQSK Summit 2025**
- participation in the **Kenya Green Building Society Sustainable & Affordable Housing Roundtable**
- a strategic partnership with **BORAQS Kenya**
- hosting the **AIA Presidential Forum and Meet & Greet**

These partnerships reinforce our position as a responsible brand contributing to a more sustainable built environment.

Sponsor of the Kenya Green Building Society - KGBS Sustainable & Affordable Housing Roundtable, held at Sanlam Plaza's Workable – Africa's first green co-working space!

5-year strategic partnership with Board of Registration of Architects & Quantity Surveyors - Boraqs Kenya.

AWARDS & RECOGNITION

Crown Paints Wins ESG Award for Eco-Conscious Manufacturing!

At Crown Paints, sustainability is not just a commitment—it's a responsibility. Winning the biggest award of the night for Eco-Conscious Manufacturing at the Kenya ESG Awards 2025 reaffirms our dedication to sustainable innovation. Through renewable energy integration, eco-friendly product development, and innovative manufacturing processes, we are actively reducing our carbon footprint while maintaining the highest quality standards.

From solar-powered operations and electric forklifts to low VOC paints, water harvesting, and recycling programs, we are leading the way in green manufacturing.

Our goal is to create a lasting environmental impact by pioneering sustainable solutions that benefit both our customers and the planet. With every step, Crown Paints makes sustainability feel like nature—seamless, pure, and essential. Together, we're shaping a greener, more sustainable future!

1st Runner-Up in the Materials & Manufacturing Category at the prestigious Kenya Green Building Society - KGBS Awards 2025

Crown Paints was proud to have been recognized as 1st Runner-Up in the Materials & Manufacturing Category at the prestigious Kenya Green Building Society - KGBS Awards 2025.

This recognition underscores our leadership in driving sustainable manufacturing, green innovation, and environmental stewardship in Kenya's built environment.

LOOKING AHEAD

As we look ahead, Crown Paints remains committed to responsible growth and long-term value creation. We will continue to strengthen climate action, operational efficiency, waste management, people development, sustainable product innovation, responsible sourcing and stakeholder engagement.

While progress in 2025 was encouraging, we remain equally focused on the areas that require improvement, ensuring that our sustainability journey remains balanced, credible and impactful.

AT A GLANCE...

2025 RESULT

WATER EFFICIENCY AND RESILIENCE RISK

Production increased 22%, but water consumption rose only 6%, reducing water intensity from 1.46 to 1.27 Kl/Kl. consumption controlled as production grew.

PRODUCTION	WATER INTENSITY	WATER CONSUMPTION
65,909 Kl	1.27 Kl/Kl	+6%
+22% vs 2024	-13% vs 2024 (from 1.46 Kl/Kl)	vs 2024

RENEWABLES AND LOW-CARBON MOBILITY

Solar and e-mobility scaled materially. Solar capacity, generation and emissions offset grew strongly; e-mobility fleet increased from 6 to 22 units.

SOLAR CONTRIBUTION TO ENERGY MIX	E-MOBILITY FLEET
2024 → 2025: 5.1% → 11.6%	6 → 22 units
	+267% vs 2024

GHG EMISSIONS RISK AND TRANSITION OPPORTUNITY

Climate performance: absolute emissions flat, intensity improved. Scope 1 & 2 emissions rose only 1% while production grew 22%, driving an 18% reduction in emission intensity. Production growth was absorbed without a proportionate emissions rise, indicating operational efficiency gains.

PRODUCTION	EMISSION INTENSITY	SCOPE 1&2 EMISSIONS
65,909 Kl	41 $kgCO_2e$/Kl	2.71 M $kgCO_2e$
+22% vs 2024	-18% vs 2024	+1% vs 2024

ENERGY EFFICIENCY AND SMART MANUFACTURING

Energy & smart manufacturing: intensities improved
Energy consumption rose 3%, but energy intensity improved 16%; specific power consumption improved 8%.
Efficiency gains helped limit cost and carbon exposure during growth.

ENERGY CONSUMPTION	ENERGY INTENSITY	SPECIFIC POWER CONSUMPTION
8.70 GWh	132 kWh/Kl	53 kWh/Kl
+3% vs 2024	-16% vs 2024	-8% vs 2024

WASTE AND POLLUTION CONTROL RISK

Waste and nature: recycling up, landfill and planting under pressure
Recycling increased 65%, but waste to landfill also increased 43%.
1,250 more trees planted in 2025

RECYCLING RATE	LANDFILL EXPOSURE	NATURE RESTORATION
Increased from 8.2% → 9.4% of measured waste.	Landfill volumes rose by 253 MT	Added 1,250+ trees in 2025
+65% vs 2024	+43% vs 2024	Bringing last 2 year trees planted to 7,250 trees
	Priority action required.	

CORPORATE GOVERNANCE

Introduction

Corporate governance is the system of rules, practices, and processes by which the organization is directed and controlled. The Corporate Governance Code sets out standards of good practice in relation to issues such as board composition and development, remuneration, accountability and audit, and relations with shareholders. Beyond the standards set by the Capital Markets Authority Code of Corporate Governance Practices for Issuers of Securities to the Public in Kenya, Crown Paints Kenya Plc (Crown), has established and maintained its own Code of business conduct.

It is Crown's aspiration to reach the highest standards of Corporate Governance, by emphasizing on transparency, creating a sustainable culture and setting industry-leading benchmarks. The Crown Corporate Governance philosophy is built on ethical and transparent business operations in-order to foster an organizational culture that focuses on performance and organizational health.

The culture ensures trust among all stakeholders and strengthens the Board and management accountability. It is from this practice of responsible governance that we continue to achieve sustainable growth and meet the aspirations of our stakeholders while fulfilling societal expectations.

The sound governance processes and systems guide Crown on its journey towards continued success. Some of the principles include, integrity, execution excellence, customer orientation, fairness, accountability, responsibility, transparency, and social responsibility.

Governing Body of Crown Paints Kenya Plc

The supreme decision-making body of Crown is the Annual General Meeting of Shareholders. The Board of Directors (the Board) is responsible for the management. The main governance structure comprises of the Board, Committees of the Board and Management who have an assisting and supporting role.

The Board of Directors

Crown does recognize and embrace the need of a diverse Board to ensure its success. The Board does have leverage from the difference in thought, perspective, knowledge, skill and industry experience, which enriches the Board discussions and decision making. The Board has a mix of Executive and Non-Executive Directors who have considerable expertise in their respective fields including competencies required in context of the company's businesses.

At Crown, the Board, is responsible for establishing the broad corporate policies and setting strategic direction while entrusting the day-to-day operations of the company to the executive management led by the Group Chief Executive Officer. The Board provides oversight so as to protect, preserve and promote the best interests of its shareholder and all stakeholders. To fulfill this role, each director exercise's his or her good faith in making business judgment to the best interests of Crown. The operations of the Board are governed by the Board Charter which the Board has deemed to be up to date with the current needs and roles of the Board. The Board Charter defines the governance parameters within which the Board exists, sets out the Board authority and specific responsibilities to be discharged by the Board and directors collectively, as well as certain roles and responsibilities incumbent upon directors as individuals.

As on the date of this Report, the Board comprised of Seven (7) members, three (3) of which are executive directors, three (3) independent non-executive directors and one (1) non-executive director (Chairman).

Board Procedures and Flow of Information

The Board meets quarterly to review the performance of the company (financial results/statements, compliance report, regulatory developments, significant transactions and risk management) and any other proposal from the management. Additional meetings are held whenever necessary. In case of matters requiring urgent approval of the Board, resolutions are passed through circulation.

The Chairman of the Board together with the Company Secretary determine the agenda for every meeting in consultation with the Group Chief Executive Officer. The Board has unrestricted access to all company-related information. The agenda for the meetings is circulated well in advance to the directors to ensure that sufficient time is provided to directors to prepare for the meeting. Directors are required to declare any conflicts of interest in all Board and Committee meetings prior to discussion of the substantive agenda items.

CORPORATE GOVERNANCE (Continued)

On need basis, company officials are invited to attend meetings of the Board and make presentations to the Board on matters including but not limited to the company's performance.

Responsibilities and separation of roles

Whilst the Chairman and the Group Chief Executive Officer are responsible for the profitable operations of the company, their roles are separate, with each having distinct and clearly defined duties and responsibilities. The Chairman is responsible for leadership of the Board, for ensuring its effectiveness on all aspects of its role and for facilitating productive contributions of all directors. The Chairman also ensures that the interests of the company's shareholders are safeguarded and that there is effective communication with them.

The Group Chief Executive Officer has overall responsibility for the day to day running of the business of the company and provides leadership to facilitate successful planning and execution of the company objectives and strategies as agreed upon by the board.

The Board members are responsible for the application of corporate governance policies and procedures of the company.

Independent non-executive Directors' business relationship with the company

The Directors are independent of management influence and do not engage in any business or interest that could impair their participation in the management of the company. They have a responsibility to ensure that the business strategy and operations are fully discussed and critically reviewed. They have no service contracts with the company but have letters of appointment which stipulates the terms of their appointment. Any fees payable to them annually is in accordance with the applicable laws and with the approval of the shareholders as disclosed under the directors' remuneration report.

Composition of the Board

The Nomination and Remuneration Committee determines the composition of the Board based on the need and requirements of the Company from time to time. It identifies the person as potential candidate, qualified to be appointed as Director and recommends to the Board for their appointment.

The Directors are then re-elected by the shareholders at the annual general meetings and are due for retirement by rotation in accordance with the company's Articles of Association. The current composition of the Board is given on the board diversity section below.

Board Diversity

Our board believes our directors should have a diverse mix of experience, qualifications, attributes and skills that enable the board to provide effective oversight of our management and business. The Nomination and Remuneration Committee uses a thoughtful approach to board composition to ensure a proper balance of directors who bring fresh and diverse perspectives and the stability of the board. Details of the board diversity and skills are as follows:

Name	Area of Expertise	Gender	Category
Mhamud Charania	Strategic planning, operations management and business planning.	Male	Non-Executive
Mustafa Turra	Strategic management, product marketing, financial management and business transformation.	Male	Executive
Patrick M. Mwati	Financial accounting, management and strategy development.	Male	Executive
Hussein H.R.J. Charania	Business strategy, customer service, marketing and business development.	Male	Executive
Steven Bwire Oundo	Architectural consultancy and Strategic management.	Male	Independent Non-Executive
Nicholas Kathiari	Audit, financial consultancy and transaction advisory.	Male	Independent Non-Executive
Alice Owuor	Taxation, corporate governance and business management.	Female	Independent Non-Executive

CORPORATE GOVERNANCE (Continued)

Board Committees

The Board has constituted various Committees with specific terms of reference. The Committees of the Board consist of a balanced mix of non-executive and executive directors. The Board periodically reviews the composition and terms of reference of its committees to comply with any amendments / modifications to the provisions relating to composition of Committees. Management, other Board members and outside service providers and experts may attend by invitation as circumstances dictate.

The Board has set up two main committees to perform its delegated functions. The committees meet regularly under the terms of reference set out by the Board.

a) Board Risk and Audit Committee

The Committee consists entirely of the independent non-executive Directors as confirmed by the Board upon appointment. The Committee meets the Statutory Auditors and the Group Internal Auditor independently without the presence of any members of the management at least once in a year. The Committee, within the scope of its assigned duties, is authorised to seek any information it requires from employees, Company officers and external parties. The committee extends invite to the Group Finance Director while other members of management are invited to present any reports required for the committee to discharge its duties. The committee members are deemed to be financially literate and have the requisite understanding, ability and experience to qualify as "audit committee financial experts" within the meaning set forth under the CMA code.

It reports to the Board and among its functions include:

1. Review of enterprise risk management and internal controls framework.
2. Review of financial reporting and disclosures.
3. Oversight of external auditor and internal audit.
4. Review of sustainability reporting, risks and initiatives.
5. Review compliance with laws, regulations and standards.

b) Nomination and Remuneration Committee

This committee is chaired by an independent non-executive Director. The committee meets at least once a year and frequently as required to carry out its duties. It is responsible for:

1. Reviewing the balance and effectiveness of the Board.
2. Determining the policy for the remuneration of the directors and executive senior management.
3. Succession planning at the Board level and proposing new nominees for appointment to the Board.

c) Special committees

The Board is mandated by the company's Articles of Association to form other ad hoc committees to deal with specific matters that may occur. These committees regularly report to the Board on their activities.

Board Policies

The board has established policy documents to ensure that the company is run in a responsible, transparent, and compliant manner, aligning with shareholders' interests and legal requirements. The following is a summary of our corporate governance practices and policies.

i. **Code of ethical conduct**
The Code places an obligation on directors and staff to take responsibility for their own conduct and work with colleagues cooperatively to establish consultative and collaborative workplaces where results are achieved without conflict with governance requirements and the law.

ii. **Whistle blowing policy**
Provides a safe process for employees or stakeholders to report unethical or illegal behavior without retaliation.

iii. **Environment, Social and Governance (ESG)**
The Board has established an ESG strategy to provide clear guidelines for integrating and managing environmental, social, and governance principles within the company's operations and business relationships. The strategy outlines how Crown Paints can effectively contribute to sustainable development, ensuring consistent and credible reporting of its impacts.

iv. **Conflict of interest policy**
The policy provides guidance to directors and employees on how to recognize and address actual or potential conflicts. If a conflict of interest

is identified, appropriate steps are taken to mitigate or eliminate it.

v. **Insider trading policy**
The directors are under a fiduciary duty to act honestly and in the best interests of the company. The policy prohibits directors and employees from trading company securities based on non-public, material information. In addition, they are barred from sharing such information with others who might use it for trading.

vi. **Anti Bribery and corruption policy**
The policy establishes controls to ensure compliance with all applicable anti-bribery and corruption regulations and to uphold our commitment to conducting business ethically and with integrity. Crown Paints has a zero-tolerance approach to bribery and corruption. We are committed to acting professionally, fairly, and with integrity in all our business dealings and relationships.

vii. **Related party transactions policy**
The objective of this Policy is to ensure related party transactions are properly reviewed, approved and disclosed in accordance with the legal and regulatory requirements; and ensure the Company is protected from any conflicts of interest that may arise between the Company and its Related Parties.

viii. **Risk management policy**
The company's Risk Policy communicates important considerations for the board in defining and addressing its oversight responsibilities. Crown Paints Kenya Plc understands that value is maximized when management sets strategy and objectives that strike an optimal balance between growth-return goals vis a vis risks. Risk is a consideration in strategy-setting processes and is evaluated in relation to its potential effect on the group strategy.

Directors' Emoluments and Loans

The details of emoluments paid to directors is contained in the Directors' Remuneration Report which is on page 40 to 41 of this annual report. The Directors' Remuneration Report is approved by the shareholders at the annual general meeting. No arrangements exist whereby a Director could acquire company shares on beneficial terms.

Communication with Stakeholders

The Company promptly discloses information on material corporate developments and other events as required under Listing Regulations. Such timely disclosures are an indicator of the company's good corporate governance practices.

a. **Publication of results**
Half-yearly and annual financial results of the company are published in leading newspapers.

b. **Website and news releases**
In compliance with the Listing Regulations, a separate dedicated section under 'Investors' on the company's website gives information on various announcements made by the company (Annual report and half year financial results along with the applicable policies of the company, Sustainability Report, Corporate Affairs). The company's website is https://www.crownpaints.co.ke/.

c. **Regulators**
The company makes timely disclosures of necessary information to Capital Markets Authority and the Nairobi Securities Exchange (NSE) in terms of the Listing Regulations and other applicable rules and regulations issued.

d. **Shareholders**
Letters and emails are sent to shareholders concerning, their dividends, annual general meetings and any other information affecting the company's state of affairs.

e. **Annual general meeting**
The Board encourages full participation of shareholders at the annual general meeting (AGM) and at other general meetings.
Adequate advance AGM notice is given. Directors' responses to the questions raised during the AGM and AGM polling results are available on the company's website. The shareholders are free to communicate at any time with the company's registrar, company secretary and the company management through published email addresses.

CROWN PAINTS KENYA PLC AND SUBSIDIARIES

REPORT OF THE DIRECTORS
FOR THE YEAR ENDED 31 DECEMBER 2025

The directors submit their report together with the audited financial statements for the year ended 31 December 2025, which show the state of the affairs of Crown Paints Kenya Plc ("the company") and Subsidiaries (together, "the group").

1. INCORPORATION

The company is domiciled in Kenya where it is incorporated as a public limited company limited by shares under the Kenyan Companies Act, 2015. The address of the registered office is set out on page 33.

2. PRINCIPAL ACTIVITIES

The principal activities of the group are the manufacture and sale of paints, adhesives, decorating sundries, PVA emulsion and alkyd resins.

3. GROUP RESULTS

The results for the year are set out on page 50.

4. COMPANY RESULTS

The results for the year are set out on page 54.

5. DIVIDENDS

Subject to approval by the shareholders, the directors recommend the payment of a first and final dividend of KShs 3.00 per share totalling to KShs 427 million for the year ended 31 December 2025 (2024: KShs 3.00 per share totalling to KShs 427 million).

6. FINANCIAL STATEMENTS

Except as indicated in Note 34 to the financial statements, the directors are not aware of any circumstances, which would render the values attributed to assets and liabilities in the financial statements of the group and the company not as stated in the financial statements.

7. RESERVES

The reserves of the group and the company are set out in Note 12.

8. DIRECTORS

The directors who served during the year and to the date of this report were:-

Mhamud Charania	-	Chairman (Non-executive)		
Mustafa Turra	-	Chief Executive Officer	-	Appointed 01 October 2025
Rakesh K. Rao	-	Chief Executive Officer	-	Resigned 01 October 2025
Patrick M. Mwati	-	Executive		
Hussein H.R.J. Charania	-	Executive		
Steven Bwire Oundo	-	Non-executive		
Nicholas Kathiari	-	Non-executive		
Alice Owuor	-	Non-executive		

9. BUSINESS REVIEW

The group delivered a strong performance over the past financial year, recording significant growth across volumes, revenues, and profitability. This success was largely driven by a favorable operating environment in Kenya and the wider East African region, characterized by steady economic activity, increased construction demand, and improved consumer confidence.

Sales volumes expanded notably, supported by robust demand from both the retail and project segments. Growth in infrastructure development, real estate projects, and home improvement activities contributed to higher product

9. BUSINESS REVIEW(Continued)

uptake across key markets. The group also benefited from an expanded distribution network and improved product availability, which enhanced market penetration and customer reach.
These results reflected a well-executed strategy, with a favorable product mix, and increased contribution from premium product lines. Strategic focus on Low-VOC products and customer-centric solutions enabled the group to strengthen its competitive positioning while maintaining pricing discipline in a dynamic market.

Profitability improved significantly during the year, driven by higher sales, operational efficiencies, and effective cost management. The group optimized its supply chain, leveraged economies of scale, and maintained tight control over administrative and production expenses. Margin expansion was further supported by stable input costs and prudent financial management.

Overall, the group's strong financial performance underscores its resilience and ability to capitalize on market opportunities. With a solid foundation, continued investment in innovation, and a supportive business environment, the group is well-positioned to sustain its growth trajectory in Kenya and across the East African region.

The Group operations in the countries face a variety of strategic and operational risks. The strategic risks relate to the long-term business goals and competitive advantage, while the operational risks concern the day-to-day business activities. These risks can stem from internal factors like inadequate systems or employee errors, as well as external factors like economic downturns or natural disasters.

Below are some of the risks;

Type	RISK	MITIGATION
Strategic:		
	Regulatory environment Meeting the unique regulatory requirements of each country, which can be complex and vary significantly.	• The Group ensures that its products meet regulatory requirements. • The Group engages regulatory authorities to ensure compliance. • The Group actively participates with other stakeholders in building relationships with theregulatory authorities.
	Competition Changes in the competitive landscape, that includes new entrants, disruptive technologies, or shifts in consumer preferences among others.	• The Group through its research and development team is continuously developing its products to meet the market demands. • The Group continuously monitors the market for the entry of new players and the threat that they offer.
	Economic / Political Fluctuations in currencies, political instability, or trade barriers can impact profitability and operations.	• Reduce reliance on a single market or supplier by diversifying operations and supply chains.

9. BUSINESS REVIEW(Continued)

Type	RISK	MITIGATION
Operational:		
	Technological Changes in technology are a continuous threat to the operations.	• The Group ensures that its operating systems are updated and protected from external threats.
	Process execution The inability to properly assess a situation and deploy the right strategy.	• Develop and implement a formal risk management process to identify, assess, and mitigate potential risks.
	Internal/ External fraud The risk of employee and external party fraud through collusion.	• Group constantly reviews updates to its internal controls and monitors the utilisation of its resources.
	Safety Resulting from the risk of violation of workplace safety measures,	• The environmental and safety team ensures adherence to safety measure and compliances to regulatory authority.
	Business practices The risk of release of wrong information accidental or otherwise.	• Ensuring that the company data is well protected and in compliance to data safety requirements.

2026 Outlook

Building on the strong performance in 2025, the company is well-positioned to sustain its growth trajectory in 2026 by leveraging its strong brand positioning and ability to adapt to changing market conditions.

Thus, the Board's outlook for 2026 is positive and optimistic that the business will navigate the business challenges, and they will undertake the necessary initiatives to ensure that the Group remains profitable whilst caring for the environment and the community.

10. STATEMENT AS TO DISCLOSURE TO THE COMPANY'S AUDITOR

With respect to each director at the time this report was approved:

(a) there is, so far as the person is aware, no relevant audit information of which the company's auditor is unaware; and,

(b) the person has taken all the steps that the person ought to have taken as a director so as to be aware of any relevant audit information and to establish that the company's auditor is aware of that information.

11. TERMS OF APPOINTMENT OF THE AUDITOR

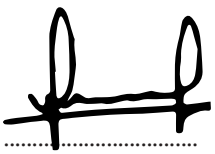
Ernst & Young LLP continues in office in accordance with the company's Articles of Association and Section 723 of the Companies Act, 2015. The directors monitor the effectiveness, objectivity and independence of the auditor. The directors also approve the annual audit engagement contract which sets out the terms of the auditor's appointment and the related fees. The agreed auditor's remuneration has been charged to the statement of profit or loss in the year.

12. GOING CONCERN

The directors have made an assessment of the group and the company's ability to continue as a going concern and are not aware of any material uncertainties related to events or conditions that may cast doubt on the group and the company's ability to continue as a going concern. As disclosed in note 34, the subsidiaries rely on the parent company for provision of working capital. The parent company has undertaken to support he subsidiaries meet their financial obligations. In view of this, the directors are of the opinion that the going concern assumption is appropriate in the preparation of the separate and consolidated financial statements.

By Order of the Board

Conrad Nyukuri



.....

Secretary

Date: 22nd May 2026

CROWN PAINTS KENYA PLC AND SUBSIDIARIES

STATEMENT OF DIRECTORS' RESPONSIBILITIES
FOR THE YEAR ENDED 31 DECEMBER 2025

The Kenyan Companies Act, 2015 requires the directors to prepare financial statements for each financial year that give a true and fair view of the financial position of the company and its subsidiaries as at the end of the financial year and of the group and company's profit or loss for that year. It also requires the directors to ensure that the group and company keeps proper accounting records that: (a) show and explain the transactions of the group and company; (b) disclose, with reasonable accuracy, the financial position of the group and company; and (c) enable the directors to ensure that every financial statement required to be prepared complies with the requirements of the Companies Act, 2015.

The directors accept responsibility for the preparation and presentation of these financial statements in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board and in the manner required by the Kenyan Companies Act, 2015. They also accept responsibility for:

(i) designing, implementing and maintaining such internal control as they determine necessary to enable the presentation of financial statements that are free from material misstatement, whether due to fraud or error;

(ii) selecting suitable accounting policies and applying them consistently; and

(iii) making accounting estimates and judgements that are reasonable in the circumstances.

Having made an assessment of the group and the company's ability to continue as a going concern, the directors are not aware of any material uncertainties related to events or conditions that may cast doubt on the group and the company's ability to continue as a going concern. As disclosed in note 34, the subsidiaries rely on the parent company for provision of working capital. The parent company has undertaken to support the subsidiaries meet their financial obligations. In view of this, the directors are of the opinion that the going concern assumption is appropriate in the preparation of the separate and consolidated financial statements.

The directors acknowledge that the independent audit of the consolidated and separate financial statements does not relieve them of their responsibilities.

Approved by the board of directors on 22nd May 2026 and signed on its behalf by:

CROWN PAINTS KENYA PLC AND SUBSIDIARIES

DIRECTORS' REMUNERATION REPORT
FOR THE YEAR ENDED 31 DECEMBER 2025

The Directors' Remuneration Report sets out the policy that the company has applied to remunerate executive and non-executive directors. The report has been prepared in accordance with the relevant provisions of the CMA code of Corporate Governance and the requirements of the Kenyan Companies Act, 2015, and the Companies (General) (Amendments) (No.2) Regulations, 2018.

Executive Directors

Executive directors are remunerated in accordance with the company's staff remuneration policy. The determination of the pay is based on the established salary scale. Annual objectives are set at the beginning of the year and a performance assessment carried out to determine the annual bonus and annual increment. The remuneration package comprises basic salary, pension and other benefits. There has been no major change relating to directors' remuneration during the year under review.

Non-Executive Directors

Non-executive directors are paid a sitting allowance for attending board meetings.

The fees are approved by shareholders at Annual General Meetings.

Contract of service

In accordance with the Capital Markets Authority regulations on non-executive directors, a third of the Board is elected at every Annual General Meeting by the shareholders for a term of 3 years on rotation basis.

The executive directors have employment contracts with the company.

The table below shows the executive and the non-executive directors' emoluments in respect of qualifying services for the year ended 31 December 2025. The aggregate directors' emoluments are disclosed in notes 9 and 22.

31 December 2025

Director	Role	Category	Gross earnings including pension contribution KShs	Annual bonus KShs	Sitting allowances KShs	Other benefits* KShs	Total KShs
Mhamud Charania	Chairman	Non- executive	6,109,392	-	-	1,025,820	7,135,212

REPORT OF THE INDEPENDENT AUDITOR

TO THE SHAREHOLDERS OF CROWN PAINTS KENYA PLC AND SUBSIDIARIES

REPORT ON THE AUDIT OF THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS

Opinion

We have audited the consolidated and separate financial statements of Crown Paints Kenya Plc ("the Company") and its subsidiaries ("the Group") and Company set out on page 49 to 118, which comprise of the consolidated and separate statements of financial position as at 31 December 2025, and the consolidated and separate statements of profit or loss and other comprehensive income, the consolidated and separate statements of changes in equity and the consolidated and separate statements of cash flows for the year then ended, and notes to the consolidated and separate financial statements, including material accounting policy information.

In our opinion, the consolidated and separate financial statements present fairly, in all material respects, the consolidated and separate financial position of the Group and Company as at 31 December 2025, and its consolidated and separate financial performance and consolidated and separate cash flows for the year then ended, in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board and the requirements of the Kenyan Companies Act, 2015.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements section of our report. We are independent of the Group and Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) as applicable to audits of financial statements of public interest entities, and other independence requirements applicable to performing audits of financial statements of the Group and Company and in Kenya. We have fulfilled our other ethical responsibilities in accordance with the IESBA Code and in accordance with other ethical requirements applicable to performing audits of the Group and Company and in Kenya. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated and separate financial statements of the current period. These matters were addressed in the context of our audit of the consolidated and separate financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated and separate financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated and separate financial statements.

The key audit matter applies to the audit of the separate financial statements.

Building a better working world

REPORT ON THE AUDIT OF THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS (Continued)

Key Audit Matters (Continued)

Key audit matter	How our audit addressed the key matter
Impairment consideration of investment in the subsidiaries	
As disclosed in note 6 to the financial statements, the Company has an investment in subsidiaries with a carrying amount as at 31 December 2025 of KShs 604 million (2024: KShs 767 million), representing 8% of the total assets of the Company. The subsidiaries have a history of making losses. Regal Paints Uganda Limited & Crown Paints Rwanda Limited reported a profit in the current year, whereas Crown Paints Tanzania Limited & Crown Paints Allied Industries Limited were in a loss position in the current year. The determination of the impairment of the investment in the subsidiary companies was considered a key audit matter because of the significant judgement involved as disclosed in note 6 to the financial statements. The key areas of judgement include: (i) the expected future cash flows, (ii) discount rates, (iii) control premium and (iv) terminal growth rate in perpetuity of the cashflows Due to the significance of the amounts and the significant judgement and related estimation uncertainty involved, the assessment of impairment has been considered a key audit matter. The complexity of these estimates require management to prepare disclosures to explain the key judgments and the key inputs into the impairment computations. These disclosures include those in Notes 2 (r), 2 (s) and 6 to the financial statements for material accounting policies and explanatory notes, respectively.	Our audit procedures included, but were not limited to the following: • Understood management's process for identifying impairment triggers and considered management's assessment of impairment for individual investments. • Assessed the appropriateness of the methodology used by management. • We evaluated the reasonableness of the key assumptions used by management in determining the value-in-use computation such as the expected future cash flows, discount rates, control premium, terminal growth rate in perpetuity of the cashflows. We involved EY valuation specialists in the review of the assumptions made by management. • Evaluated management plans for future actions and whether the outcome of these plans is likely to improve performance in these subsidiaries and whether management's plans are feasible in the circumstances. • Assessed the adequacy of the disclosures in respect of judgement and assumptions used and evaluated compliance with IAS 36 Impairment of Assets.

REPORT ON THE AUDIT OF THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS (Continued)

Other Information

The directors are responsible for the other information. The other information comprises the information included on pages 33 to 41 of the document titled "Crown Paints Kenya Plc and Subsidiaries Annual Report and Financial Statements for the year ended 31 December 2025", which includes the Report of Directors as required by the Kenyan Companies Act, 2015, Corporate Information, Statement of Directors' Responsibilities for the Consolidated and Separate Financial Statements, Directors' Remuneration Report, which we obtained prior to the date of this report, and Chairman's Statement, Group Chief Executive Officer's Statement and Corporate Governance Report, which are expected to be made available to us after that date. The other information does not include the consolidated or the separate financial statements and our auditor's report thereon.

Our opinion on the consolidated and separate financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the consolidated and separate financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Consolidated and Separate Financial Statements

The directors are responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board and the requirements of the Kenyan Companies Act, 2015, and for such internal control as the directors determine is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, the directors are responsible for assessing the Group and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group and the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

REPORT ON THE AUDIT OF THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS (Continued)

Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements (Continued)

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the group and/or the company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the consolidated and separate financial statements. We are responsible for the direction, supervision and review of the audit work performed for the purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely

crown If you like it...Crown it!

REPORT ON THE AUDIT OF THE CONSOLIDATED AND SEPARATE FINANCIAL STATEMENTS (Continued)

Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements (Continued)

rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER MATTERS PRESCRIBED BY THE KENYAN COMPANIES ACT, 2015

As required by the Kenyan Companies Act, 2015 we report to you, based on our audit, that:

i) in our opinion, the information given in the report of the directors on pages 34 to 37 is consistent with the consolidated and separate financial statements.

ii) in our opinion, the auditable part of directors' remuneration report on pages 39 to 41 has been properly prepared in accordance with the Kenyan Companies Act, 2015.

The engagement partner responsible for the audit resulting in this independent auditor's report is CPA Allan Gichuhi, Practising Certificate Number 1899.

1. NEW ACCOUNTING STANDARDS, AMENDMENTS, INTERPRETATIONS AND IMPROVEMENTS

The accounting policies adopted are consistent with those of the previous financial year, except for the following new and amended standards, interpretations and improvements effective as of 1 January 2025. The group has not early adopted any standards, interpretations or amendments that have been issued but are not yet effective.

The new standards and amendments effective as of 1 January 2025 are listed below:

- Lack of exchangeability – Amendments to IAS 21

These standards and amendments had no impact on the consolidated and separate financial statements of the group and company respectively.

Standards issued but not yet effective

The standards and interpretations that are issued, but not yet effective, up to the date of issuance of the group and company's financial statements are disclosed below. The group intends to adopt these standards, if applicable, when they become effective. These standards are not expected to have a material impact on the group and company's financial statements.

Effective for annual periods beginning on or after 1 January 2026

- Classification and Measurement of Financial Instruments - Amendments to IFRS 9 and IFRS 7
- Contracts Referencing Nature-dependent Electricity – Amendments to IFRS 9 and IFRS 7
- Annual Improvements to IFRS Accounting Standards— Volume 11

Effective for annual periods beginning on or after 1 January 2027

- IFRS 18 – Presentation and Disclosure in Financial Statements
- IFRS 19 - Subsidiaries without Public Accountability: Disclosure
- Translation to a Hyperinflationary Presentation Currency – Amendments to IAS 21

Effective date postponed indefinitely

- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Amendments to IFRS 10 and IAS 28

Amendments that do not have an effective date or transition requirements

- Amendments to Illustrative Examples on IFRS 7, IFRS 18, IAS 1, IAS 8, IAS 36 and IAS 37

The standards and amendments that are relevant on the consolidated and separate financial statements of the group and company respectively are discussed below.

Classification and Measurement of Financial Instruments - Amendments to IFRS 9 and IFRS 7

In May 2024, the IASB issued Amendments to IFRS 9 and IFRS 7, Amendments to the Classification and Measurement of Financial Instruments (the Amendments). The Amendments include:

- A clarification that a financial liability is derecognised on the 'settlement date' and the introduction of an accounting policy choice (if specific conditions are met) to derecognise financial liabilities settled using an electronic payment system before the settlement date
- Additional guidance on how the contractual cash flows for financial assets with environmental, social and corporate governance (ESG) and similar features should be assessed
- Clarifications on what constitute 'non-recourse features' and what are the characteristics of contractually linked instruments
- The introduction of disclosures for financial instruments with contingent features and additional \ disclosure requirements for equity instruments classified at fair value through other comprehensive income (OCI)

1. NEW ACCOUNTING STANDARDS, AMENDMENTS, INTERPRETATIONS AND IMPROVEMENTS (continued)

Classification and Measurement of Financial Instruments - Amendments to IFRS 9 and IFRS 7 (continued)

The Amendments are effective for annual periods starting on or after 1 January 2026 with early adoption permitted for classification of financial assets and related disclosures only. The Group does not anticipate that the amendments will have a material effect on the consolidated and separate financial statements. In addition, no financial assets are expected to change their measurement category due to these amendments.

IFRS 18 Presentation and Disclosure in Financial Statements

In April 2025, the IASB issued IFRS 18, which replaces IAS 1 Presentation of Financial Statements. IFRS 18 introduces new requirements for presentation within the statement of profit or loss, including specified totals and subtotals. Furthermore, entities are required to classify all income and expenses within the statement of profit or loss into one of five categories: operating, investing, financing, income taxes and discontinued operations, whereof the first three are new.

It also requires disclosure of newly defined management-defined performance measures, subtotals of income and expenses, and includes new requirements for aggregation and disaggregation of financial information based on the identified 'roles' of the primary financial statements (PFS) and the notes.

In addition, narrow-scope amendments have been made to IAS 7 Statement of Cash Flows, which include changing the starting point for determining cash flows from operations under the indirect method, from 'profit or loss' to 'operating profit or loss' and removing the optionality around classification of cash flows from dividends and interest. In addition, there are consequential amendments to several other standards.

IFRS 18, and the amendments to the other standards, is effective for reporting periods beginning on or after 1 January 2027, but earlier application is permitted and must be disclosed. IFRS 18 will apply retrospectively.

The Group is currently working to identify all impacts the amendments will have on the consolidated and separate financial statements and notes to the financial statements.

2. MATERIAL ACCOUNTING POLICIES

a) Basis of preparation

The consolidated and separate financial statements of the group and company respectively have been prepare in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board and in the manner required by the Kenya Companies Act, 2015.

The consolidated financial statements of the group have been prepared on a historical cost basis except for certain property, plant and equipment that have been measured at fair value. The consolidated financial statements of the group are presented in Kenya Shillings and all values are rounded to the nearest thousands, except when otherwise indicated.

For the purpose of reporting under the Kenya Companies Act, 2015, the balance sheet in these financial statements is represented by the statement of financial position and the profit and loss account is represented by the statement of profit or loss and other comprehensive income.
The preparation of financial statements in conformity with IFRS Accounting Standards requires the use of estimates and assumptions. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or where assumptions and estimates are significant to the financial statements, are disclosed in Note 2(r).

2. MATERIAL ACCOUNTING POLICIES (Continued)

b) Basis of consolidation

The consolidated financial statements comprise the financial statements of the company and its subsidiaries as at 31 December 2025.
Control is achieved when the group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.
A listing of the subsidiaries in the group is provided in Note 6.

Specifically, the group controls an investee if and only if the group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

When the group has less than a majority of the voting or similar rights of an investee, the group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The group's voting rights and potential voting rights

The group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the group obtains control over the subsidiary and ceases when the group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary
- Derecognises the carrying amount of any non-controlling interest
- Derecognises the cumulative translation differences recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the group had directly disposed of the related assets or liabilities.

c) Foreign currency transactions

The consolidated financial statements are presented in Kenya Shillings, which is also the parent company's functional currency. Each entity in the group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. The group uses the direct method of consolidation and on disposal of a foreign operation, the gain or loss that is reclassified to profit or loss reflects the amount that arises from using this method.

2. MATERIAL ACCOUNTING POLICIES (Continued)

c) Foreign currency transactions (Continued)

(i) Transactions and balances

Transactions in foreign currencies are initially recorded by the group entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rate of exchange at the reporting date. All differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

The gain or loss arising on translation of non-monetary items is treated in line with the recognition of gain or loss on change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

(ii) Group companies

On consolidation, the assets and liabilities of foreign operations are translated into Kenya shillings at the rate of exchange prevailing at the reporting date and their statements of profit or loss and other comprehensive income are translated at exchange rates prevailing at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in other comprehensive income. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in profit or loss.

d) Revenue recognition

Revenue from contracts with customers

The group is in the business of manufacturing and sale of paints and adhesive products. Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services.

The group has generally concluded that it is the principal in its revenue arrangements, except for the Akzonobel South Africa (Pty) Limited contract where it is acting as an agent because it typically arranges for the goods or services provided by the latter and how they are transferred to the customer without taking control.

Sale of goods

Revenue from sale of paints and adhesive products is recognised at the point in time when control of the product is transferred to the customer, generally on delivery of the goods. The normal credit term is 30 days upon delivery.

The group considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated (e.g., warranties, customer loyalty points). The group provides a loyalty points program to its Team Kubwa painters whereby they are now able to convert accumulated loyalty points to instant MPESA redemption, KPLC and Naivas shopping vouchers. In determining the transaction price for the sale of the products, the company considers the effects of variable consideration, the existence of significant financing components, noncash consideration, and consideration payable to the customer (if any).
The Team Kubwa painters incentivise customers to purchase paint from the entity. The Team Kubwa painters themselves do not purchase the paint, thus these loyalty points are not accounted for under IFRS 15.

2. MATERIAL ACCOUNTING POLICIES (Continued)

d) Revenue recognition (Continued)

Sale of services

Revenue from apply and supply services is recognised when all the contractual obligations have been met, usually upon completion of the paint job. The revenue is included in other income in profit or loss.

Tolling fees

In 2017, AkzoNobel appointed Regal Paints Uganda Limited as a non-exclusive distributor, toll manufacturer and licensee to use the trademarks to manufacture, distribute, sell or supply the products in the Republic of Uganda on the terms of the signed Agreement. The tolling fee charged on manufacture of the Sadolin paint is recognised as other income in the statement of profit or loss.

Significant financing component

The group has no significant financing components from its customers.

e) Tax

Current income tax

Current income tax assets and liabilities for the current period are measured at the amounts expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the group operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognized outside profit or loss.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred income tax liabilities are recognised for all taxable temporary differences, except:

- where the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

- in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax losses and unused tax credits. Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences, the carry forward unused tax losses and the unused tax credits can be utilized, except:

- when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

2. MATERIAL ACCOUNTING POLICIES (Continued)

e) Tax (Continued)

- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient future taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Value Added Tax

Revenues, expenses and assets are recognised net of the amount of value added tax except:

- Where the value added tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the value added tax is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable.

- Receivables and payables that are stated with the amount of value added tax included.

The net amount of value added tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

f) Property, plant and equipment

All property, plant and equipment are initially recognized at cost. Such cost includes the purchase price, directly attributable costs of bringing the asset to the location and condition necessary for it to be capable of operating, the cost of replacing part of the property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of property, plant and equipment are required to be replaced at intervals, the group recognises such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred.

Subsequently, all property and equipment except land and Work-in-progress (WIP), are measured at fair value less accumulated depreciation and impairment losses recognized after the date of the revaluation. Valuations are performed approximately once

2. MATERIAL ACCOUNTING POLICIES (Continued)

f) Property, plant and equipment (Continued)

every 5 years to ensure that the carrying amount of a revalued asset does not differ materially from its fair value.
Any increase in an asset's carrying amount as a result of a revaluation is recorded in other comprehensive income and credited to the asset revaluation reserve in equity, except to the extent that it reverses a revaluation decrease of the same asset previously recognized in profit or loss, in which case, the increase is recognised in profit or loss. A revaluation deficit is recognised in profit or loss, except to the extent that it offsets an existing surplus on the same asset recognised in the asset revaluation reserve.

An annual transfer from the asset revaluation reserve to retained earnings is made for the difference between depreciation based on the revalued carrying amount of the assets and depreciation based on the assets' original cost, net of any related deferred tax. Additionally, accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

Upon disposal, any revaluation reserve relating to the particular asset being sold is transferred to retained earnings.

Land is stated at cost less any accumulated impairment losses.

Depreciation is calculated on a straight-line basis, at annual rates estimated to write off carrying amounts of the assets to their residual values over their expected useful lives. The annual depreciation rates in use are as follows:

Buildings	**2%**
Plant and machinery	**8%**
Fixtures and fittings	**12½%**
Motor vehicles	**25%**
Computers and equipment	**20%**

An item of property, plant and equipment and any significant part initially recognized is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss when the asset is derecognised.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end, and adjusted prospectively, if appropriate.

g) Leases

The group assesses at contract inception, whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) Right-of-use assets

The group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and accumulated impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease

2. MATERIAL ACCOUNTING POLICIES (Continued)

g) Leases (Continued)

liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received.

Right-of-use assets are depreciated on a straight-line basis over the lease term.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in Note 2 (r) (i) and 2 (r) (ii), significant accounting judgments and key sources of estimation uncertainty, impairment of non-financial assets.

ii) Lease liabilities

At the commencement date of the lease, the group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the group and payments of penalties for terminating the lease, if the lease term reflects the group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

iii) Short-term leases and leases of low-value assets

The group applies the short-term lease recognition exemption to its short-term leases (if any) (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low-value. Lease payments on short-term leases and leases of low-valueassets are recognized as expense on a straight-line basis over the lease term.

Group as a lessor

Leases in which the group does not transfer substantially all the risks and benefits of ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line over the lease terms and included in other income in the statement of profit or loss. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

h) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale, are capitalised as part of the cost of the asset.

All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

2. MATERIAL ACCOUNTING POLICIES (Continued)

i) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised on a straight line basis over their useful lives from the date they are available for use, up to a maximum of five years. Intangible assets are assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset, is reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets is recognised in profit or loss in an expense category consistent with the function of the intangible asset.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are not amortised but are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired. The group does not have any intangible assets with indefinite useful lives.

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in profit or loss when the asset is derecognised.

The impairment policy on non-financial assets is discussed under Note 2(m).

j) Financial instruments – initial recognition and subsequent measurement

A financial instrument is any contract that gives rise to a financial asset for one entity and a financial liability or equity instrument for another entity.

i) Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the group's business model for managing them. The group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component are measured at the transaction price determined under IFRS 15. Refer to the accounting policies in note 2 (d) Revenue recognition.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

2. MATERIAL ACCOUNTING POLICIES (Continued)

j) Financial instruments – initial recognition and subsequent measurement (Continued)

i) Financial assets (Continued)

Initial recognition and measurement (Continued)

The company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

Financial assets at amortised cost (debt instruments)

This category is the most relevant to the group. The group measures financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows, and,
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The group's financial assets at amortised cost includes trade and other receivables, amount due from related companies and bank and cash balances.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a company of similar financial assets) is primarily derecognised (i.e., removed from the group's statement of financial position) when:

- The rights to receive cash flows from the asset have expired, Or
- The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the group has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and

2. MATERIAL ACCOUNTING POLICIES (Continued)

j) Financial instruments – initial recognition and subsequent measurement (Continued)

i) Financial assets (Continued)

Derecognition of financial assets (Continued)
obligations that the company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the company could be required to repay.

Impairment of financial assets
For trade receivables, amounts due from related companies and bank balances, the group applies a simplified approach in calculating ECLs. Therefore, the group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors, banks and the economic environment.

The group considers a financial asset in default when contractual payments are 120 days past due. In determining the appropriate definition of default, the group considers a range of quantitative and qualitative factors, including historical loss experience, observed customer payment behaviour, and the effectiveness of its collection and recovery practices. However, in certain cases, the group may also consider a financial asset to be in default when internal or external information indicates that the group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows. The amount written off is recognised in the statement of profit of loss. Any reversal of provision for ECLs is recognised in the statement of profit or loss which is based on the established provision matrix.

ii) Financial liabilities

Initial recognition and measurement

The group determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value plus, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The group's financial liabilities include trade and other payables, amounts due to related parties, bank overdrafts, short term notes and loans and borrowings.

Subsequent measurement
The measurement of financial liabilities depends on their classification as described below:

Trade payables and amounts due to related parties
Trade payables and amounts due to related parties are stated at amortised cost using the effective interest method.

Loans and borrowings
Interest bearing loans, overdrafts and short term notes are recorded at the proceeds received, net of direct costs. Finance charges, including the premium payable on settlement or redemption, are accounted for on the accrual basis and are added to the carrying amount of the instrument to the extent that they are not settled in the period in which they arise. Subsequent to initial recognition, loans and borrowings are measured at amortised cost using the effective interest method.

2. MATERIAL ACCOUNTING POLICIES (Continued)

j) Financial instruments – initial recognition and subsequent measurement (Continued)

ii) Financial liabilities (Continued)

Loans and borrowings (Continued)

After initial recognition, interest-bearing loans, overdrafts and short-term notes are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit or loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

iii) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position if, and only if:

- There is a currently enforceable legal right to offset the recognised amounts, and
- There is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously

No such arrangements exist where the group offsets financial assets and financial liabilities.

k) Fair value of assets and liabilities

The group measures certain property, plant and equipment at fair value at each reporting date. The group has no financial instruments that are measured at fair value.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the group.
The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.
The group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

2. MATERIAL ACCOUNTING POLICIES (Continued)

k) Fair value of assets and liabilities (Continued)

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. Refer to Note 32.

l) Inventories

Inventories are valued at the lower of cost and net realisable value. Costs incurred in bringing each product to its present location and condition are accounted for as follows:

Raw materials
Cost is determined on a weighted average basis and comprises expenditure incurred in the normal course of business.

Finished goods and work-in-progress
Cost is determined on a weighted average basis and comprises cost of direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity but excluding borrowing costs.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Allowance for obsolete inventories
Directors review the inventories on an annual basis to assess the likelihood of obsolescence. In determining whether an inventory item is obsolete, directors make judgment as to whether the inventory item can be used as an input in production or is in saleable condition. Refer to Note 7 for disclosure on the obsolete inventory.

Reversal of inventory write down occurs when inventory assessed as slow moving is used as input in production or is finally sold. Provision for slow moving and obsolete inventories is normally based on the last movement day of the stock item which varies with subsequent sales or use.

m) Impairment of non-financial assets

The group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If such indication exists, the group makes an estimate of the asset's recoverable amount. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses are recognised in profit or loss, except for property, plant and equipment previously revalued with the revaluation taken to OCI. For such property, plant and equipment, the impairment is recognised in OCI up to the amount of any previous revaluation.

An asset's recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market conditions are taken into account. If no such transactions can be identified, an appropriate valuation

2. MATERIAL ACCOUNTING POLICIES (Continued)

m) Impairment of non-financial assets (Continued)

model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the asset's recoverable amount is estimated. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, or exceed the carrying amount that would have been determined, net of depreciation or amortisation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss unless the asset is carried at revalued amount, in which case the reversal is treated as a revaluation increase.

n) Cash and cash equivalents

The group considers cash at banks and on hand and short-term deposits with a maturity of 90 days or less from the date of acquisition, as cash and cash equivalents. The carrying amounts of cash and cash equivalents approximate the fair value due to their short term nature.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash at banks and on hand, and short-term deposits, net of outstanding bank overdrafts.

o) Provisions

Provisions are recognised when the group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. When the group expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in profit or loss net of any reimbursement.

Where the effect of the time value of money is material, the amount of a provision is the present value of the expenditure expected to be required to settle the obligation, discounted at a rate that reflects current market assessments of the time value of money and the risks specific to the liability.

p) Employee benefits

Defined contribution provident fund
The group operates a defined contribution post-employment provident fund for eligible employees. The fund is funded by contributions from the employees and the group. The assets of the fund are held and administered independently of the group's assets.

Statutory pension scheme
The group also makes contributions to the statutory defined contribution schemes in the four countries where operations are based.

The group's contributions to the defined contribution plans are recognised as an expense in profit or loss as they fall due.

2. MATERIAL ACCOUNTING POLICIES (Continued)

p) Employee benefits (Continued)

Leave
Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave accrued at the reporting date.

Bonus
An accrual is recognised for the amount expected to be paid under short-term cash bonus if the company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, the obligation can be estimated reliably and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

q) Dividends payable

Dividends payable on ordinary shares are charged to retained earnings in the period in which they are declared. Proposed dividends are not accrued for until ratified by the shareholders in the Annual General Meeting.

r) Significant accounting judgements, estimates and assumptions

The preparation of the group's financial statements in conformity with IFRSs requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities at the end of the reporting period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

(i) Judgements

In the process of applying the group's accounting policies, management has made the following judgements, which have significant effect on the amounts recognised in the consolidated financial statements:

Allowances for obsolete inventories
Directors review the inventories on an annual basis to assess the likelihood of obsolescence. In determining whether an inventory item is obsolete, directors make judgment as to whether the inventory item can be used as an input in production or is in saleable condition. Refer to Note 7 for disclosure on the obsolete inventory.

Impairment of financial instruments
Impairment losses on financial assets-IFRS 9
The group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for the customers. The provision matrix is based on the group's historical observed default rates. The group will revise the matrix to adjust the historical credit loss experience with forward-looking information. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.
The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs involves estimation. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the group's trade receivables and related party balances is disclosed in Note 8 and 9.

Leases - estimating the incremental borrowing rate
The group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use assets in a similar economic

2. MATERIAL ACCOUNTING POLICIES (Continued)

r) Significant accounting judgements, estimates and assumptions (Continued)

(i) Judgements (Continued)

Leases - estimating the incremental borrowing rate (Continued)

environment. The IBR therefore reflects what the group 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease (for example, when leases are not in the group's functional currency).

The group's incremental borrowing rate is estimated at the group level and is based on the average rate of obtaining loans from commercial banks. The Management used 13% as the incremental borrowing rate.

Deferred tax assets

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax losses and unused tax credits. Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences, the carry forward unused tax losses and the unused tax credits can be utilized. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits, together with future tax planning strategies. Refer to Note 14 for the disclosure on deferred tax.

Income taxes

The group is subject to income taxes in Kenya, Uganda, Rwanda and Tanzania. Significant judgement is required in determining the company's provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business, the company recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provision in the period in which such determination is made.
Further details on income taxes are disclosed in Notes 10.

Going concern

The management makes significant judgement in assessing the effect the financial performance and financial status of the subsidiaries have,on the ability of the group to continue as a going concern. The group's management has made an assessment of its ability to continue as a going concern and is satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt on the group's ability to continue as a going concern.

(ii) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Useful lives of property, plant and equipment

The company reviews the estimated useful lives, depreciation method and residual values of property, plant and equipment at the end of each reporting period. In reviewing the useful lives of property, plant and equipment, the company considers the remaining period over which an asset is expected to be available for use. Management also looks at the number of production or similar units expected to be obtained from the property, plant and equipment. Judgment and assumptions are required in estimating the remaining useful period and estimates of the number of production or similar units expected to be obtained from the property, plant and equipment.

Further details on property, plant and equipment are given in Notes 2 (f) and 3.

2. MATERIAL ACCOUNTING POLICIES (Continued)

r) Significant accounting judgements, estimates and assumptions (Continued)

(ii) Estimates and assumptions (Continued)

Revaluation of certain classes of property, plant and equipment

The group carries certain classes of property, plant and equipment at fair value, with changes in fair value being recognised in the other comprehensive income. The group's leasehold buildings, plant, and machinery, motor vehicles, fixtures, fittings and equipment were revalued on 31 January 2021. The assets were valued on the basis market comparable approach and depreciated replacement cost approach by independent valuers, Sterling Valuers Limited.

Further details on property, plant and equipment are given in Notes 2 (f) and 3.

Useful lives of intangible assets

Critical estimates are made by directors in determining the useful lives to intangible assets based on the intended use of the assets and the economic lives of those assets. Subsequent changes in circumstances or prospective utilisation of the assets concerned could result in the actual useful lives differing from initial estimates. Further details on intangible assets are given in Note 4.

Impairment of non-financial assets

At each reporting date, the group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. Refer to Notes 3, 4 and 6. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Impairment exists when the carrying amount of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the group is not yet committed to or significant future investments that will enhance the performance of the assets of the CGU being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

In assessing whether there is any indication that the tangible and intangible assets may be impaired, the group considers the following indications:

a) there are observable indications that the asset's value has declined during the period significantly more than would be expected as a result of the passage of time or normal use.
b) significant changes with an adverse effect on the entity have taken place during the period, or will take place in the near future, in the technological, market, economic or legal environment in which the entity operates or in the market to which an asset is dedicated.
c) market interest rates or other market rates of return on investments have increased during the period, and those increases are likely to affect the discount rate used in calculating an asset's value in use and decrease the asset's recoverable amount materially.
d) the carrying amount of the net assets of the entity is more than its market capitalisation.
e) evidence is available of obsolescence or physical damage of an asset.
f) significant changes with an adverse effect on the entity have taken place during the period, or are expected to take place in the near future, in the extent to which, or manner in which, an asset is used or is expected to be used. These changes include the asset becoming idle, plans to discontinue or restructure the operation to which an asset belongs, plans to dispose of an asset before the previously expected date, and reassessing the useful life of an asset as finite rather than indefinite.

2. MATERIAL ACCOUNTING POLICIES (Continued)

r) Significant accounting judgements, estimates and assumptions (Continued)

(ii) Estimates and assumptions (Continued)

Impairment of non-financial assets (Continued)

g) evidence is available from internal reporting that indicates that the economic performance of an asset is, or will be, worse than expected.

Contingent liabilities

As disclosed in Note 29 to these financial statements, the company is exposed to various contingent liabilities in the normal course of business. The directors evaluate the status of these exposures on a regular basis to assess the probability of the company incurring related liabilities. However, provisions are only made in the financial statements where, based on the directors' evaluation, a present obligation has been established, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

s) Investments in subsidiaries

Investments in subsidiaries are carried in the company's separate statement of financial position at cost less provisions for impairment losses. Where, in the opinion of directors, there has been impairment in the value of the investment the loss is recognised as an expense in the period in which the impairment is recognised.

* Capital work-in-progress represents costs incurred on ongoing work in the construction of a factory in Kenya and ongoing construction projects in Tanzania and Uganda. Work-in-Progress is not depreciated until the assets are completed and available for use i.e. when it is in location and condition necessary for it to be capable of operating in the manner intended by management. In 2025, the Group sold fixed assets with a total net carrying amount of KShs Nil for a consideration of KShs 568,000. In 2024, the Group sold fixed assets with a total net carrying amount of KShs 6,029,000 for a consideration of KShs 7,669,000. The net gains/ losses on these disposals were recognised as part of other operating income/ expenses in the statement of profit or loss (Notes 21 and 22).

Refer to Notes 15 and 16 for details on assets pledged as security for the group's bank borrowings.

If all assets, except for land and work in progress, were measured using the cost model, their carrying amounts would be as follows:

	Buildings KShs'000	Plant and machinery KShs'000	Motor vehicles KShs'000	Furniture, fittings and equip-ment KShs'000	Total KShs'000
Net carrying amount	**522,081**	**480,032**	**71,317**	**444,168**	**1,517,598**

If you like it...Crown it!

3. PROPERTY, PLANT AND EQUIPMENT (Continued)

No borrowing costs were capitalized during the year ended 31 December 2025 (2024: Nil).
The Kenya Commercial Bank Limited and NCBA Bank facilities (Refer to Notes 15 and 16) are secured by debentures of KShs 571 million and USD 4.2 million over the assets of the group supported by a supplementary charge over LR 209/5792 along Mogadishu road, LR 209/4275 along Likoni road and LR 209/4479 along Dar Es Salaam road.

All the group's assets, except for freehold land and work in progress, were revalued on 31 January 2021. The revaluation amounts have been incorporated in the financial statements for the year then ended.

The basis of valuation was: -

Leasehold buildings	-	**Open market value**
Plant and machinery	-	**Open market value**
Motor vehicles	-	**Open market value**
Fixtures, fittings and equipment	-	**Open market value**

The methods used to determine the fair value were;

(i) The comparable approach, which compares the sales of similar items in the market. The approach was used in the valuation of unspecialised equipment.

(ii) The depreciated replacement cost, which derives the value of an asset from the current cost of reproduction/ replacement less deductions for physical deterioration and all relevant forms of obsolescence and optimization. The approach was used in the valuation of specialized machinery, buildings and structures.

The valuation was undertaken by an independent professional valuer, Sterling Valuers Limited. The revaluation surplus or deficit was recognised as disclosed in note 2(f).

(c) IMPACT OF THE ENACTMENT OF THE LAND REGISTRATION ACT NO. 3 2012 ON THE COMPANY'S LAND HOLDING STATUS

The current Constitution, enacted on 27 August 2010, introduced significant changes in the landholding by non-citizens. The Constitution no longer allows foreigners and foreign bodies to own freehold land and leasehold land in excess of 99 years. Freehold land and leasehold land of more than 99 years owned by foreigners and foreign bodies automatically becomes 99 year leases upon enactment of the required legislation under Articles 65(4) of the constitution. These changes in the landholding took effect on 2 May 2012 upon the enactment of the Land Registration Act No. 3 of 2012.

Ownership of the land has however transferred to the entity under the original lease agreement, but factoring in the above Land registration Act, ownership cannot legally transfer. The entity thus no longer has any lease payments remaining and the only outflows relate to land rates paid to government for the land.

As per the definition of Articles 65(3) of the constitution, the company is a non-citizen and hence the status of its freehold land changes to 99 years lease.

The group has assessed the impact of the amended land laws and concluded that they do not impact significantly on these financial statements. Under the International financial reporting standards BC78 (IFRS 16) Leases, a long-term lease of land (for example, a 99-year lease), the present value of the lease payments is likely to represent substantially all of the fair value of the land. The group currently accounts for its land previously classified as freehold in a similar manner to accounting for the purchase of the land by applying international accounting standards (IAS 16) Property, Plant and Equipment, rather than by applying IFRS 16.

The company is waiting for the National Land Commission to issue guidelines that will operationalise the provisions of the constitution and the revised land laws. The company will continue to reassess the impact of the revised land laws to the financial statements as the guidelines are issued.

(Loss) / gain on lease termination (note 21)	(74)	143	-	143

The identified right of use assets that the group has leased are depots, showrooms, godowns (storage warehouses) and residential apartments.

The group has the right to obtain substantially all economic benefits from the use and also the right to direct the use of the assets. The group will return the assets to the lessor at the end of lease term. The leases run from between 2 - 12 years and are therefore not short-term leases.
There are no low value assets. Non lease components are treated separately using the applicable standards.

There are no restrictions or covenants imposed by lessors and the company did not enter into any sale and leaseback transactions during the year (2024: Nil).

The total cash outflow for leases amount to KShs 231 million (2024: KShs 212 million inclusive of service charge which has been expensed in current year) for the group, company KShs 133 million in 2025 (2024: KShs 129 million inclusive of service charge which has been expensed in current year).

6. INVESTMENT IN SUBSIDIARIES

Information about subsidiaries

The separate financial statements of the company include investment in subsidiaries as disclosed below.

These investments are unquoted and held at cost less impairment loss:

Details of investment	Country of incorporation	Activity	Holding %	2025 KShs'000	2024 KShs'000

Discount rate - weighted average cost of capital	26.6%	20.8%	22.4%
Terminal growth rate in perpetuity	5.5%	5.7%	5.0%

Regal Paints Uganda Limited and Crown Paints Tanzania Limited have a history of losses. Further, all the subsidiaries rely on the parent company for provision of working capital and their ability to continue as a going concern depends on the continued support they receive from the parent company.
During the year ended 31 December 2025, an impairment assessment was carried out by management and as tabulated above, the recoverable amount of Crown Paints Tanzania Limited, Crown Paints Rwanda Limited and Regal Paints Uganda Limited was lower than the carrying amount. The recoverable amount of the CGU's (cash generating units) for each entity is the value in use which was estimated using the discounted cash flows.

The cash flow projections included specific estimates for five years and a terminal growth rate thereafter. The terminal growth rate was determined based on management's estimate of the long-term compound annual EBITDA growth rate, consistent with the assumptions that a market participant would make.

Revenue growth was projected taking into account the average growth levels experienced over the past three years and the estimated sales volume and price growth for the next five years which also includes the company's marketing plans.

6. INVESTMENT IN SUBSIDIARIES (Continued)

An impairment loss was recognised in the statement of profit or loss for the year ended 31 December 2025 and for the year ended 31 December 2024.
The assumptions used includes the following;

Regal Paints Uganda Limited

- Management anticipates revenue to increase by 25% in 2026 and 9% in 2027, thereafter at an average of 15% for the period 2028-2030. Raw material cost is forecast to only increase in line with inflation rates and not exceeding 4%. Gross margin has averaged 32% for the last three years and this is expected to be maintained in the forecast period.
- Operating expenses as a % of revenue was 39% similar to 2024. The trend is expected to improve as operating expenses as a % of revenue is expected to average 31% in the forecast period.
- The expected volume growth will be 20% in 2026 and thereafter 12% up to 2030 provided;
    - Inflation rates will not exceed 4%. i.e the raw materials cost increase will not exceed 4%
    - Expected annual price increases will only be done to counter any increase in raw material cost.
    - No economic nor political factors will affect the projected volumes and sales growth below projections.
    - Projected Sadolin sales volume will not in any way go below stated projections.
- Overheads will be absorbed at UG Shs 300 per litre.
- Annual salaries increase will not exceed 11%.
- Budgets will be adhered to 100%.
- The tolling fee from Sadolin brand sales will be maintained at 9% of raw materials and overheads.
- The Company will maintain 60 days of raw materials.
- Debtors net outstanding days will gradually be reduced to 65 days.
- On average the credit days will be 2.2 months considering shipping period and mix of local creditors.

Crown Paints Tanzania Limited (CPTL)

- Management anticipates sales volume growth of 18% in 2026 and thereafter to average 9% in 2027 to 2030. Revenue growth estimated at 16% in 2026 and at an average of 10% in 2027 to 2030. In the macro-economics the growth in GDP is anticipated at 5.6%.
- Management has strategically put in place the following initiatives:
    - Plans to open new depot in Dodoma and new factory in Dar es salaam
    - Opened new warehouse in Dar es salaam to cater for the new direct dealers reducing the lead times and showroom opened to enhance visibility of our products.
    - Change in business model, by bringing onboard the distributors' dealers directly to CPTL, and hence new customers.
    - Painters' training and marketing initiatives. This will boost sales due to product knowledge and market awareness.
- Cost of sales is forecast to increase in line with increase in revenue in the forecast period between 2026 and 2030. Other costs of sales include royalty/levy which is projected to be incurred in the forecast period at a minimum of USD 50,000 per annum or 3% of Sadolin net sales.
- Gross margin improved from 21% in 2024 to 26% in 2025 and is forecast to increase to an average of 30% between 2026-2030.
- Operating expenses as a % of revenue stood at 30% in 2025. This is expected to improve as operating expenses as % of revenue is expected to average of 26% in the forecast period which is lower than current result.
- An expected growth in the construction sector to reach USD 7.07 million in 2029.
- Enhanced internal controls, better production quality, cost saving in multiple fronts - Staff, factory overheads and stocking requirement and better planning and sourcing of raw materials.
- Team Kubwa to continue to boost the coming years sales.
- Raw materials cost will remain same or proportionate increase with an increase in sales price.
- Exchange rates will remain stable at TZS 2600 to 1 USD, and any change will not have a material impact on raw material cost.

6. INVESTMENT IN SUBSIDIARIES (Continued)

Crown Paints Tanzania Limited (CPTL) (Continued)

- Annual salaries increase will not exceed 8%.

Crown Paints Rwanda Limited

- Management anticipates a growth of sales volume by 22% in 2026 and at an average of 10% in 2027-2030 which is foreseen to be growth rate across most of the product lines. Sales revenue growth and gross cost of sales increase is 28% in 2026 and at an average of 10% in 2027-2030.
- The gross margin is forecast to increase to average of 26.5% in the period 2026-2030.
- Operating expenses as a % of revenue was at 21% in 2025. However, operating expenses are expected to reduce to an average of 18% in the forecast period.
- Staff costs are considered to have a constant increase of 8% over the years.
- Depreciation remains constant in the fixed asset register as long as there are no major disposals and acquisitions.
- Other expenses annual increase not to exceed 5% each year.

Raw materials	1,742,834	1,463,859	1,338,024	1,133,233
Goods in transit	413,927	526,689	455,866	526,689
Work In progress	89,457	87,913	61,322	56,467
	3,429,661	**3,193,469**	**2,710,616**	**2,545,851**
Inventories write-down to NRV	(161,269)	(95,997)	(146,578)	(87,297)
	3,268,392	**3,097,472**	**2,564,038**	**2,458,554**

The amount of inventories write-down reversed during the year was KShs Nil (2024: KShs 37,634,000) for the group and KShs Nil for the company (2024: KShs 33,817,000), for inventories carried at net realisable value. This is recognised in other income, Note 21. Reversal of inventory write down occurs when inventory assessed as slow moving is used as input in production or is finally sold. Provision is normally based on the last movement day of the stock item which varies with subsequent sales or use.

See below for the movements in the inventories write-down:

	GROUP		COMPANY	
	2025 KShs'000	**2024 KShs'000**	**2025 KShs'000**	**2024 KShs'000**
At the beginning of the year	95,997	84,651	87,297	76,003
Provision for the year (note 23)	64,147	53,526	59,281	45,111
Used during the year (write off)	-	(3,581)	-	-

Exchange difference	1,125	(966)	-	-
	161,269	**95,997**	**146,578**	**87,297**

8. TRADE AND OTHER RECEIVABLES

	GROUP		COMPANY	
	2025 KShs'000	**2024 KShs'000**	**2025 KShs'000**	**2024 KShs'000**
Trade receivables	2,019,161	1,703,972	1,670,320	1,364,017
Other receivables	253,893	230,504	130,873	115,701
Prepayments	120,234	111,414	93,319	83,061
	2,393,288	**2,045,890**	**1,894,512**	**1,562,779**

The average credit period on sales of finished goods is 30 days. Other receivables consist of staff loans, staff floats and deposits with suppliers. Staff loans are issued to staff to purchase motor vehicles at an interest rate of 8%, for a period not exceeding 36 months. The staff loans are secured against the logbooks. Staff floats and deposits with suppliers are made in the ordinary course of business and are non-interest bearing. They are for a period not exceeding two months.

Prepayments were made in the ordinary course of business with regard to insurance premiums and computer software licences.

As at 31 December 2025, the group's trade receivables with initial value of KShs 743,148,000 (2024: KShs 768,988,000) were fully provided for. The company's trade receivables with initial value of KShs 433,017,000 (2024: KShs 561,823,000) were fully provided for.

Trade and other receivables are carried net of expected credit losses (ECLs) / impairment losses. The movement in expected credit losses / impairment losses is as set out below:

	GROUP		COMPANY	
	2025 KShs'000	**2024 KShs'000**	**2025 KShs'000**	**2024 KShs'000**
At the beginning of the year	768,988	812,612	561,823	561,823
Charge for the year	77,053	21,499	-	-
Recoveries during the year	(130,173)	(30,081)	(128,806)	-
Exchange difference	27,262	(35,042)	-	-
	743,130	**768,988**	**433,017**	**561,823**
Net movement				
Charge for the year	77,053	21,499	-	-
Recoveries during the year	(130,173)	(30,081)	(128,806)	-
	(53,120)	**(8,582)**	**(128,806)**	**-**
Ageing analysis of trade receivables:				
Less than 60 days	2,003,825	1,879,927	1,654,710	1,508,864
61 days to 90 days	31,764	116,293	11,213	95,340
Over 90 days	726,702	476,740	437,414	321,636
	2,762,291	**2,472,960**	**2,103,337**	**1,925,840**
Allowance for ECLs / impairment	(743,130)	(768,988)	(433,017)	(561,823)
Net	**2,019,161**	**1,703,972**	**1,670,320**	**1,364,017**

8. TRADE AND OTHER RECEIVABLES (Continued)

Trade receivables are non-interest bearing and are generally on 30 days credit terms. In determining the recoverability of a trade receivable, the group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the reporting date. An increase/(decrease) in the gross carrying amounts of the trade receivables impacts on the movement in the ECL amounts with a consideration of the relevant probability of defaults (PDs) used in the ECL computation. The increase in gross carrying amounts by KShs 278,976,000 for the group and KShs 177,497,000 for the company was primarily driven by increase in revenue. However, the ECL decreased due to improvement of credit quality resulting in lower lifetime loss recognition as majority of the receivables were below 30 days past due.

Ageing analysis for other receivables:

	GROUP		COMPANY	
	2025 KShs'000	**2024 KShs'000**	**2025 KShs'000**	**2024 KShs'000**
Less than 60 days	219,591	225,034	96,571	110,229
61 days to 90 days	-	-	-	-
Over 90 days	34,302	5,472	34,302	5,472
	253,893	**230,506**	**130,873**	**115,701**
Impaired	-	-	-	-
Net	**253,893**	**230,506**	**130,873**	**115,701**

The group's other receivables mainly relate to staff loans. Given the nature of the receivables and the fact that they are recovered through payroll then no ECL has been recognised.

9. RELATED PARTY DISCLOSURES

The company is controlled by Crown Paints and Building Products Limited (incorporated in Kenya) which owns 48.42% of the company's shares. Barclay Holdings Limited incorporated in Belize Off-Shore Centre holds 19.36% of the company's shares. Crown Paints and Building Products Limited is a wholly owned subsidiary of Barclay Holdings Limited. Thus, the ultimate parent Company for Crown Paints Kenya Plc is Barclay Holdings Limited. The remaining 32.22% of the shares are widely held through the Nairobi Securities Exchange. Crown Paints Allied Industries Limited, Regal Paints Uganda Limited, Crown Paints Rwanda Limited and Crown Paints Tanzania Limited are wholly owned subsidiaries of the company.

(i) Amount due from:

	GROUP		COMPANY	
	2025 KShs'000	**2024 KShs'000**	**2025 KShs'000**	**2024 KShs'000**
Crown Paints and Building Products Limited	4,641	926,246	4,641	926,246

	496	**919,865**	**71,262**	**1,029,511**

9. RELATED PARTY DISCLOSURES (Continued)

As at 31 December 2025, the Group's related party receivables with initial value of KShs 4,145,000 (2024: KShs 6,381,000) were fully provided for. The Company's related party receivables with initial value of KShs 126,106,000 (2024: KShs 667,433,000) were fully provided for.

Related party receivables are carried net of expected credit losses (ECLs) / impairment. An increase/(decrease) in the gross carrying amounts of related party receivables impacts on the movement in the ECL amounts with a consideration of the relevant probability of defaults (PDs) used in the ECL computation. The decrease in gross carrying amounts by KShs 921,605,000 for the group was due to repayments whereas for the company, the KShs 1,499,576,000 reduction was due to both repayments from related parties and capitalization of balances due from Crown Paints Tanzania. These led to proportionate decrease in ECL. The information about credit exposures are disclosed in Note 31.

The movement in the expected credit losses / impairment is as set out below.

	GROUP		COMPANY	
	2025 KShs'000	**2024 KShs'000**	**2025 KShs'000**	**2024 KShs'000**

	28,127	**(65,125)**	**124,445**	**(409)**

11. SHARE CAPITAL

	GROUP & COMPANY	
	2025 KShs'000	2024 KShs'000
Authorised:		
163,707,000 (2024: 163,707,000) ordinary shares of KShs. 5 each	**818,535**	**818,535**
Issued and fully paid:		
142,362,000 (2024: 142,362,000) ordinary shares of KShs. 5 each	**711,810**	**711,810**

The company's authorized share capital is divided into 163,707,000 ordinary shares of KShs 5 each (this includes 21,345,000 ESOP shares).

12. RESERVES

	GROUP		COMPANY	
	2025 KShs'000	2024 KShs'000	2025 KShs'000	2024 KShs'000
Share premium	392,097	392,097	392,097	392,097
Revaluation reserve	18,803	31,157	32,394	33,066
Foreign currency translation reserve	46,026	101,134	-	-
Retained earnings	2,926,084	2,392,692	2,704,101	2,540,412
	3,383,010	**2,917,080**	**3,128,592**	**2,965,575**

The share premium arose from the issue of 8,630,000 ordinary shares to the public in 1992 and from a rights issue of 71,181,000 new ordinary shares at a price of KShs 10 per share in June 2021. Any excess of the cash received from shareholders over the ordinary share nominal amount is recorded in the share premium.

The revaluation reserve represents the surplus on the revaluation of property, plant and equipment, net of deferred income tax. Movements in the revaluation surplus are shown on the statement of changes in equity. The revaluation surplus is non-distributable.

The foreign currency translation reserve arose on translation differences of foreign subsidiaries balances from their functional currencies to the presentation currency. The foreign currency translation reserve is non-distributable.

The retained earnings balance represents the amount available for dividend distribution to the shareholders of the company.

13. DIVIDENDS

	GROUP & COMPANY	
	2025 KShs'000	2024 KShs'000
Dividend declared:		
Final dividend for 2024 KShs 3.00 per share (2023: KShs Nil per share)	**427,086**	**-**
Split as below:		
Declared and paid	345,691	-
Declared but not paid/ capitalised	81,395	-
	427,086	**-**
Proposed for approval at the annual general meeting (not recognised as a liability as at 31 December):		
Dividend on ordinary shares 2025: KShs 3.00 (2024: KShs 3.00 per share	427,086	427,086

(i) Dividend per share is arrived at by dividing the total dividends by the outstanding number of shares in issue during the year.

(ii) Payment of dividend is subject to withholding tax at the rate of 5% for resident and 10% for non-resident shareholders, respectively.

14. DEFERRED TAX ASSET- GROUP

	Balance at 1 January KShs'000	Profit or loss KShs'000	Utilised tax loss during the year KShs'000	Other comprehensive income KShs'000	Balance at 31 December KShs'000

18. TRADE AND OTHER PAYABLES

	GROUP		COMPANY	
	2025 KShs'000	2024 KShs'000	2025 KShs'000	2024 KShs'000
Amounts falling due within one year				
Trade payables	2,185,310	2,678,646	1,841,580	2,269,079
Other payables	215,240	107,753	179,812	78,152
Accruals	1,015,592	828,572	629,288	469,205
	3,416,142	**3,614,971**	**2,650,680**	**2,816,436**

Terms and conditions of the above financial liabilities:

- Trade payables are non-interest bearing and are normally settled on 60-day terms.
- Other payables represent outstanding payroll costs and unidentified bank deposits and are non-interest bearing and have an average term of one month.
- Accruals are non-interest bearing and represent liabilities in relation to expenses incurred but for which invoices had not been received as at year-end.

19. REVENUE FROM CONTRACTS WITH CUSTOMERS

	GROUP		COMPANY	
	2025 KShs'000	2024 KShs'000	2025 KShs'000	2024 KShs'000
Following revenue arose from sale of goods:				
Decorative paints	12,632,662	10,396,556	11,477,936	9,668,771
Industrial paints	2,013,293	1,698,874	1,849,724	1,563,243
Automotive paints	903,342	883,666	304,866	291,624
Adhesives	444,397	471,403	433,600	428,322
	15,993,694	**13,450,499**	**14,066,126**	**11,951,960**

Revenue from the sale of the paint is recognised at a point in time when control of the asset is transferred to the customer, generally on delivery of the paint at the customer's location. Refer to note 33 for revenue information based on locations per customers.

20. COST OF SALES

	GROUP		COMPANY	
	2025 KShs'000	2024 KShs'000	2025 KShs'000	2024 KShs'000
Raw materials	8,406,282	7,587,162	7,353,448	6,825,160
Salaries and wages	536,080	379,838	461,756	311,568

And after crediting: -				
Interest income (Note 21)	851	3,612	340	814
Operating lease income (Note 21)	16,266	36,185	16,266	36,185
Gain on disposal of property, plant and equipment (Note 21)	550	1,640	550	1,407
Foreign exchange gain (Note 21)	153,990	350,566	16,259	330,545

27. BASIC AND DILUTED EARNINGS PER SHARE

	GROUP		COMPANY	
	2025 KShs'000	2024 KShs'000	2025 KShs'000	2024 KShs'000
Net profit attributable to ordinary shareholders (KShs'000)	948,124	543,688	590,103	457,764
Weighted average number of ordinary shares in '000'	142,362	142,362	142,362	142,362

Basic and diluted earnings per share is calculated by dividing the net profit attributable to the ordinary equity holders by the weighted average number of ordinary shares in issue during the year.
There were no dilutive potential shares as at 31 December 2025 and as at 31 December 2024.

28. CASH AND CASH EQUIVALENTS

Cash and cash equivalents included in the statement of cash flows comprise the following amounts in the statement of financial position:

	GROUP		COMPANY	
	2025 KShs'000	2024 KShs'000	2025 KShs'000	2024 KShs'000
Cash in hand	4,157	9,706	615	615
Bank balances	1,193,038	735,360	667,823	568,470
Cash and bank balances	**1,197,195**	**745,066**	**668,438**	**569,085**
Bank overdraft (Note 15)	(420,063)	(400,329)	(48,285)	(387,457)
Cash and cash equivalents	**777,132**	**344,737**	**620,153**	**181,628**

29. PROVISIONS, COMMITMENTS AND CONTINGENT LIABILITIES

a) Operating lease commitments

(i) As lessor:
The group has entered into commercial property leases on its surplus office and manufacturing building and certain items of machinery. These non-cancellable leases have remaining term of three years All leases include a clause to enable upward revision of the rental charge on an annual basis according to prevailing market conditions.
The future undiscounted lease payments to be received from third parties under non-cancellable operating leases are as follows:

	GROUP		COMPANY	
	2025 KShs'000	2024 KShs'000	2025 KShs'000	2024 KShs'000
Within 1 year	12,896	12,896	12,896	12,896
Within 5 years	-	26,320	-	26,320
	12,896	**39,216**	**12,896**	**39,216**

b) Provisions

The group is involved in a number of legal proceedings which are yet to be concluded upon. The directors evaluate the status of these exposures on a regular basis to assess the probability of incurring related liabilities. Provisions are recognised when the group has a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Of the KShs 41.3 million estimate (2024: KShs 80.9 million), KShs 41.3 million has been provided for (2024: KShs 13.4 million).

29. PROVISIONS, COMMITMENTS AND CONTINGENT LIABILITIES (continued)

b) Provisions (Continued)

	GROUP & COMPANY	
	2025	**2024**
	KShs'000	**KShs'000**
At 1 January	13,353	12,053
Provision during the year	27,912	1,300
At 31 December	**41,265**	**13,353**

c) The group's capital commitments as at year end were nil (2024: Nil).

d) Bank facilities

	GROUP		COMPANY	
	2025	**2024**	**2025**	**2024**
	KShs'000	**KShs'000**	**KShs'000**	**KShs'000**
Letters of credit	18,538	36,090	18,538	36,090
Avalised bills	6,948	78,493	6,948	78,493
Documentary collections	284,360	288,889	284,360	288,889
Guarantees given by bankers	18,000	19,000	18,000	19,000
	327,846	**422,472**	**327,846**	**422,472**

The guarantees are issued by the group's bankers in favour of third parties and the group has entered into counter - indemnities with the same banks. These guarantees are part of the borrowing facilities disclosed in Notes 15 & 16 above and are issued in the normal course of business.

e) Contingent liabilities and IFRIC 23 Income Tax Uncertainties

Regal Paints Uganda Limited received an assessment of UShs 3,741,720,936 relating to Customs assessment for the period January 2017 to December 2019. The company objected to the assessment and the matter was appealed at the Tax Appeals Tribunal and determined on 31 July 2023. In the ruling, the court ruled in favour of the company taxes amounting to UShs 3,171,078,262 while taxes assessed relating to Dr. Fix-it products amounting to UShs 570,642,674 in favour of Uganda Revenue Authority. The company has appealed against Dr. Fix-it ruling at the High Court. Uganda Revenue Authority being partially dissatisfied with the ruling of the Tribunal lodged an appeal with the High Court of Uganda (Commercial Division) on the 3rd October 2023. The parties duly complied with the Court's directions and filed their respective written submissions. The matter was scheduled for delivery of judgment on 17th December 2025; however, the judgment has not been delivered to date.

Crown Paints Tanzania Limited received an assessment of TZShs 798,173,922 for the financial period January 2014 to December 2022 relating to various taxes including Corporate tax, Value Added Tax, Withholding tax and Miscellaneous taxes. The company has objected the full amount and as of the date of these financial statements, the matter remain unresolved and currently pending hearing in the Court of Appeal.

As per management's evaluation, the appeals/objections are more likely than not, to be determined in favour of the respective entities, and therefore no provision has been made in the financial statements.

30. LEASE LIABILITY

Total	**474,662**	**434,372**	**324,906**	**302,325**

31. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The group's financial liabilities comprise bank loans and overdrafts, short term notes, amounts due to related parties, lease liabilities and trade and other payables. The main purpose of these financial liabilities is to raise finance for the group's operations. The group's financial assets include trade and other receivables, amounts due from related parties and cash and short-term deposits, which arise directly from its operations.

	GROUP		COMPANY	
	2025	**2024**	**2025**	**2024**
	KShs'000	**KShs'000**	**KShs'000**	**KShs'000**
Financial assets measured at amortised cost				
Cash and bank balances	1,197,195	745,066	668,438	569,085
Trade and other receivables	2,153,109	1,791,027	1,771,091	1,383,395
Amounts due from related companies	496	919,865	71,262	1,029,511
	3,350,800	**3,455,958**	**2,510,791**	**2,981,991**
Financial liabilities measured at amortised cost				
Bank overdraft	420,063	400,329	48,285	387,457
Bank loans	658,316	820,395	657,361	806,334
Short term notes	348,037	391,896	348,037	391,896
Lease liabilities	473,854	434,372	324,098	302,325
Amounts due to related companies	143,861	54,463	139,675	64,868
Trade and other payables	2,310,913	2,761,291	2,021,392	2,347,231
	4,355,044	**4,862,746**	**3,538,848**	**4,300,111**

The amounts in the table above are the carrying amounts of the financial instruments at the reporting date. All the financial assets are classified as financial assets measured at amortized cost. All financial liabilities are classified as financial liabilities measured at amortized cost.

The main risks arising from the group's financial instruments are cash flow interest rate risk, liquidity risk, foreign currency risk and credit risk. The Board of Directors reviews and agrees policies for managing each of these risks which are summarised below.

31. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Interest rate risk

The group's exposure to the risk of changes in market interest rates relates primarily to the company's loans, bank overdraft and short term notes. The group manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings. The group's exposure to the risks associated with changes in interest rates is minimal as its borrowings are pegged to bank's base rate. The base rate does not vary significantly over time.

	NCBA	KCB
Bank overdraft KShs	Base rate plus 1% p.a.	Base rate p.a.
Bank overdraft USD	Base rate plus 0.5% p.a	Base rate p.a.
Bank loan KShs	Base rate plus 1% p.a.	Base rate plus 2.15% p.a.
Bank loan USD	Base rate plus 0.5% p.a.	Base rate p.a.

Currently, the NCBA and KCB KShs base lending rates are 13.52% and 13.85%, respectively. NCBA USD base lending rate is 10.5% and KCB 12%. The interest on the short-term note is at 91 day treasury bills interest rate plus 1.5%.

The following sensitivity analysis shows how profit and equity would change if the interest rate had been different on the reporting date, with all other variables held constant.

		GROUP		COMPANY	
		Effect on profit before tax KShs'000	Effect on equity KShs'000	Effect on profit before tax KShs'000	Effect on equity KShs'000
2025	Increase by 2%	(28,528)	(19,970)	(21,074)	(14,752)
	Decrease by 2%	28,528	19,970	21,074	14,752
2024	Increase by 2%	(32,252)	(22,577)	(31,714)	(22,200)
	Decrease by 2%	32,252	22,577	31,714	22,200

Credit risk

Credit risk refers to the risk that a counter party will default on its contractual obligations resulting in financial loss to the group. It is the group's policy that all customers who wish to trade on credit terms are subjected to credit verification procedures. The credit controller assesses the credit quality of each customer taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal ratings in accordance with limits set by management. Utilisation of credit limits is regularly monitored. The group has no collateral holdings as there is no significant concentration of credit risk.

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due and are applied to groupings of receivables with similar loss patterns, which are determined based on customer type, specifically trade receivables and intercompany balances. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade receivables are written-off after all efforts to collect past due balances have been exhausted.

The amounts that best represent the group's and company's maximum exposure to credit risk as at 31 December 2025 were as follows:

31. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

The group makes purchases from other countries in American Dollars (USD). It is thus exposed to movements in foreign currency exchange rates. The foreign exchange risks sensitivity analysis is based on the following assumptions:

- Foreign exchange exposure represents net currency positions of all currencies other than Kenya Shillings.
- The currency risk sensitivity analysis is based on the assumptions that the net currency positions are highly effective.
- The predominant foreign currency operation is the USD and is representative of the foreign currency risk.

The base currency in which the group's business is transacted is Kenya Shillings.
The following table demonstrates the sensitivity to a reasonably possible change in USD, with all other variables held constant, of the group's and the company's profit before tax and equity (due to changes in the fair value of monetary assets and liabilities). The sensitivity rationale is based on the average movement of the US Dollar against the Kenyan Shilling during the year. The group has considered the average annual historical rate as published by the Central Bank of Kenya for the last 7 years which generally averages 4%. The group has considered to therefore use 4% appreciation/ depreciation in the deriving the sensitivity analysis to foreign exchange rates.

		GROUP		COMPANY

	Decrease in US$ by 4%	75,803	52,580	67,621	46,853

31. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Liquidity risk

This is the risk that the company and the group will encounter difficulties in meeting its financial commitments from its financial liabilities that are settled by delivering cash or another financial asset. Prudent liquidity risk management includes maintaining sufficient cash to meet the company's and group's obligations.

Ultimate responsibility for liquidity risk management rests with the board of directors, which has built an appropriate liquidity risk management framework for the management of the company's short, medium and long term funding and liquidity management requirements. The company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The following table analyses the group's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the table below are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying amounts, as the impact of discounting is not significant.

Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the group's processes, personnel, technology and infrastructure and from external factors other than credit, interest rate, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. Operational risks arise from all of the group's operations and are faced by all business units.

The group's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the group's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to senior management within each business unit. This responsibility is supported by the development of overall group standards for the management of operational risk in the following areas:

- Requirements for appropriate segregation of duties, including the independent authorisation of transactions.
- Requirements for the reconciliation and monitoring of transactions.
- Compliance with regulatory and other legal requirements.
- Documentation of controls and procedures.

31. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Operational risk (Continued)

- Requirements for the yearly assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified.
- Requirements for the reporting of operational losses and proposed remedial action.
- Development of contingency plans.
- Training and professional development.
- Ethical and business standards.

32. FAIR VALUE OF ASSETS AND LIABILITIES

a) Comparison by class of the carrying amounts and fair values of the financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the company.
The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

Management assessed that the fair value of trade receivables, amounts due from related companies, cash and cash equivalents, trade payables, short term notes, current bank loans and amounts due to related companies approximate their carrying amounts largely due to the short-term maturities of these instruments.

b) Fair value hierarchy

The group measures all property, plant and equipment except land and capital work in progress (WIP) at fair value. The fair value information on the assets measured at fair value is included below by level of the fair value hierarchy. These are grouped into levels 1 to 3 based on the degree to which the fair value is observable.

i) Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
ii) Level 2 fair value measurements are those derived from inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as a price) or indirectly (i.e. derived from prices); and
iii) Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs)

Assets measured at fair value:

32. FAIR VALUE OF ASSETS AND LIABILITIES (Continued)

Depreciation charge	(309,190)	(306,681)	(244,289)	(246,608)
At 31 December	**1,588,505**	**1,582,931**	**1,293,509**	**1,316,548**

The fair values of property, plant and equipment presented in the table above are based on valuations performed by Sterling Valuers, accredited independent valuers, on 31 January 2021 plus purchases during the year, net of depreciation charge and assets disposed. Fair value is used on a non-recurring basis to reflect the market value of plant, property and equipment.

32. FAIR VALUE OF ASSETS AND LIABILITIES (Continued)

Basis of valuation:
Assets were valued on basis of Open Market Value which is defined as the most probable amount for which the property / asset would reasonably be expected to sell at the date of valuation between a willing buyer and a willing seller in an arm's length transaction after a proper and reasonable marketing period wherein the parties under negotiation have each acted knowledgeably, prudently and without compulsion.

In arriving at the value of the various assets, the valuers considered value in exchange (the probable price an asset would exchange for in the open market) and value in use (value a specific property has for a specific user) and therefore non-market related sometimes.

Methodology:
The following methods were used in the valuation of different assets as appropriate:

a) Comparable Approach: This method considers the sales of similar or substitute properties and related market data and establishes a value estimate by processes involving comparison.

b) Depreciated Replacement Cost: Is the current cost of reproduction or replacement of an asset less deductions for physical deterioration, and all relevant forms of obsolescence and optimization.

Significant unobservable valuation inputs:
i) Range of rental income per square feet KShs 18 – KShs 45
ii) Reconstruction period – 18 months
iii) Range of construction cost per square meter KShs 18,000 – 40,000
iv) Capitalisation yield – 7.5%

Significant increases (decreases) in each of the valuation input above in isolation would result in a significantly higher (lower) fair value on a linear basis.

Fair values of financial instruments
The group did not have financial instruments whose subsequent measurement is at fair value.

33. OPERATING SEGMENT INFORMATION

The group's risks and rate of return are affected predominantly by differences in the products produced. The operating businesses are organised and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

The Executive Management Committee comprising of the executive directors is the Chief Operating Decision Maker (CODM) and monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment.

Operating Segments
The group's business is currently organised in two divisions, paint and adhesives, which form the basis on which it reports its primary segment information.

The paints segment manufactures and sells paints, decorating sundries, PVA emulsion and alkyd resins

The adhesives segment manufactures and sells adhesives. .

33. OPERATING SEGMENT INFORMATION (Continued)

Operating Segments (Continued)

Segment revenue, segment expenses and segment results include transfers between business segments. Those transfers are eliminated on consolidation.

Segment information is as presented below.

Non-current assets for this purpose consist of property, plant and equipment, intangible assets and ROU assets.

34. STATUS OF SUBSIDIARY COMPANIES

Regal Paints Uganda Limited and Crown Paints Rwanda Limited were profitable in the current year whereas, Crown Paints Tanzania Limited reported a loss for the year. Crown Paints Allied Industries Limited discontinued operations in the current year and the process of its deregistration is currently ongoing. The subsidiaries' ability to continue as a going concern depends on the continued support, they receive from the parent company.

The parent company has confirmed its commitment to continue giving financial support to the subsidiaries and has issued an undertaking in this respect to each of the subsidiaries. The undertaking affirms the parent company's commitment to continue providing sufficient financial support, if necessary, to enable the subsidiaries to meet their financial obligations, as and when they fall due, and to ensure they continue trading in the foreseeable future.

Further, the directors have assessed business outlook of the subsidiaries and they are confident that their financial performance will improve, and they will become profitable in the foreseeable future. The directors have no immediate plan to cease operations for any of the subsidiaries and /or liquidate them. Thus, their authorisation for the guarantee by the parent company to the subsidiaries.

The consolidated financial statements are prepared on the basis of accounting policies applicable to a going concern. This basis of preparation presumes that the company and group will realize its assets and discharge its liabilities in the ordinary course of business.

35. CAPITAL RISK MANAGEMENT

The group manages its capital to ensure that it will be able to continue as a going concern while optimising the return to stakeholders through the optimization of the debt and equity balance. The capital structure of the group consists of debt, which includes borrowings, cash and cash equivalents, issued capital and retained earnings. The group's capital requirements are currently met through internally generated funds from operations and external borrowing in the form of bank loans and short-term notes. To maintain its capital structure, the group may adjust dividend payment to shareholders. Consistent with others in the industry, the group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings less cash and cash equivalents. Total capital is calculated as equity plus net debt.

35. CAPITAL RISK MANAGEMENT (Continued)

	2025 KShs'000	2024 KShs'000
Share capital	711,810	711,810
